FOREWORD

Listed herein are designations and chemical composition limits for aluminum hardeners registered in accordance with the *Recommendation – International Designation System for Aluminum Hardeners*, which is printed on page 10. Additions may be made as required according to the rules outlined in the Declaration of Accord, printed on page 13, and hardeners will be deleted when no longer in commercial use (See table of Inactive Hardener Alloys).

Some of the registered alloys may be the subject of a patent or patent application and their listing herein is not to be construed in any way as the granting of a license under such patent rights.

The following organizations are signatories to the Declaration of Accord on the Recommendation:
