

Joint Australian New Zealand Standard

In-service safety inspection and testing of electrical equipment

Superseding AS/NZS 3760:2003

AS/NZS 3760:2010

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-036 – In-service testing of electrical equipment. It was approved on behalf of the Council of Standards Australia on 2 September 2010 and by the Council of Standards New Zealand on 24 September 2010. It was published on 30 September 2010.

Amendment No. 1, a correction amendment, was approved for publication in Australia by the Standards Council of Australia on 13 April 2011, and for publication in New Zealand by the Acting Minister of Energy and Resources on 15 April 2011, and on behalf of the Standards Council of New Zealand on 19 April 2011.

Amendment No. 2, a correction amendment, was approved for publication in Australia by the Standards Council of Australia on 4 December 2012, and for publication in New Zealand by the Minister of Energy and Resources on 29 November 2012, and on behalf of the Standards Council of New Zealand on 30 November 2012. It was published on 21 December 2012.

The following interests are represented on Committee EL-036:

| | |
|---|---|
| Australian Chamber of Commerce and Industry | Hire Industry Association of New Zealand |
| Australian Industry Group (AIG) | Housing Industry Association Australia |
| Australasian Lighting Industry Association | Institute of Electrical Inspectors Australia |
| Building Service Contractors of New Zealand (Inc.) | Joint Accreditation System of Australia and New Zealand (JAS-ANZ) |
| Consulting Interests Australia | Ministry of Economic Development New Zealand |
| Consulting Interests New Zealand | National Electrical and Communications Association Australia |
| Consumer Electronic Suppliers Association | New Zealand Electric Fence Energizers Manufacturers Standards Working Group |
| Department of Labour New Zealand | New Zealand Council of Elders |
| Department Fair Trading, New South Wales Consumer Protection Agency | Safety Institute of Australia |
| ElectroTechnical Association Inc. | Schneider Electric Limited New Zealand |
| Energy Safe Victoria | WorkCover New South Wales |
| Hire and Rental Association Australian | |

KEEPING STANDARDS UP TO DATE

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards webshop at www.standards.com.au or Standards New Zealand's website at www.standards.co.nz.

Alternatively, Standards Australia publishes an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organisation.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the title page.

In-service safety inspection and testing of electrical equipment

Edition 1 AS 3760:1990
Edition 2 AS/NZS 3760:1996
Edition 3 AS/NZS 3760:2000
Edition 4 AS/NZS 3760:2001
Edition 5 AS/NZS 3760:2003
Edition 6 AS/NZS 3760:2010
Reissued incorporating Amendment No. 1 (April 2011)
Reissued incorporating Amendment No. 2 (December 2012)

CONTENTS

| | | |
|------------------|----------------------------|---|
| | Referenced documents | 3 |
| Amd 2 Dec '12 | Foreword | 4 |
| | Outcome statement | 4 |

SECTION 1 – SCOPE AND GENERAL

| | | |
|-----|----------------------|---|
| 1.1 | Scope | 5 |
| 1.2 | General | 6 |
| 1.3 | Interpretation | 8 |
| 1.4 | Definitions | 8 |

SECTION 2 – INSPECTION AND TESTS

| | | | |
|------------------|-----|--|----|
| | 2 | General | 13 |
| | 2.1 | Frequency of inspection and tests | 13 |
| | 2.2 | Personnel | 14 |
| Amd 2 Dec '12 | 2.3 | Inspection and testing | 14 |
| | 2.4 | Action resulting from inspection and testing | 18 |
| | 2.5 | Documentation | 19 |

APPENDICES

| | | | |
|------------------|---|--|----|
| | A | Background (Informative) | 22 |
| | B | Guidelines on the electrical knowledge of a competent person (Informative) | 24 |
| | C | Polarity for cord sets and cord extension sets (Normative) | 25 |
| | D | Test of earthing continuity (Normative) | 28 |
| Amd 2 Dec '12 | E | Insulation testing (Normative) | 30 |
| | F | Insulation resistance testing of portable isolating transformers (Normative) | 35 |
| | G | Insulation resistance testing of a power supply (Normative) | 38 |
| | H | Test for the operating time of residual current devices (RCDs) (Normative) | 40 |
| | J | Arc welders (Informative) | 42 |
| Amd 1 Apr '11 | K | Regulatory application of this Standard (Informative) | 43 |

TABLES

| | | |
|----|--|----|
| 1 | Leakage current limits | 16 |
| 2 | Insulation resistance limits | 16 |
| 3 | Maximum tripping times | 17 |
| 4 | Indicative testing and inspection intervals for electrical equipment | 20 |
| C1 | Conductor colours for flexible cords | 26 |
| C2 | Colour schemes of conductor insulation in modern sheathed flexible cords | 27 |
| H1 | Tripping time accuracy | 40 |

FIGURES

| | | | |
|------------------|----|---|----|
| | C1 | Cord set | 25 |
| | C2 | Cord extension set | 26 |
| Amd 1 Apr '11 | D1 | Measurement of the earth continuity resistance between accessible earthed metal parts and the earth pin of the mains plug | 29 |
| | D2 | Measurement of the earth continuity resistance between the mains plug earth pin and the earthing aperture contacts of an EPOD | 29 |
| | E1 | Leakage current test setup using differential test method for Class II three-phase equipment | 32 |

| | |
|------------------|---|
| Amd 1 Apr '11 | E2 Leakage current test setup using differential test method for Class II single-phase equipment 32 |
| | E3 Measurement of the insulation resistance between live supply conductors and accessible earthed metal parts of typical Class I equipment 33 |
| | E4 Measurement of the insulation resistance between live supply conductors and accessible metal parts of a typical Class II equipment 33 |
| | E5 Measurement of the insulation resistance of an EPOD 34 |
| | F1 Measurement of the insulation resistance between live supply conductors to a portable isolating transformer and accessible earthed parts for Class I isolating transformers or accessible metal parts for Class II isolating transformers 36 |
| Amd 1 Apr '11 | F2 Measurement of the insulation resistance between live supply conductors and the portable isolating transformer output (secondary) winding 36 |
| | F3 Measurement of the insulation resistance between a portable isolating transformer (secondary) winding and accessible earthed parts for Class I isolating transformers 37 |
| | G1 Measurement of the insulation resistance of a power supply 39 |

JOINT AUSTRALIAN/NEW ZEALAND STANDARDS

| | |
|------------------------|---|
| AS/NZS 3000:2007 | Electrical installations (known as the Australian/New Zealand wiring rules) |
| AS/NZS 3001:2008 | Electrical installations – Re-locatable premises (including caravans and tents) and their site installations |
| AS/NZS 3002:2008 | Electrical installations – Shows and carnivals |
| AS/NZS 3003:2003 | Electrical installations – Patient treatment areas of hospitals and medical and dental practices and dialysing locations |
| AS/NZS 3010:2005 | Electrical installations – Generating sets |
| AS/NZS 3012:2003 | Electrical installations – Construction and demolition sites |
| AS/NZS 3019:2007 | Electrical installations – Periodic verification |
| AS/NZS 3190:2009 | Approval and test specification – Residual current devices (current-operated earth-leakage devices) |
| AS/NZS 3551:2004 | Technical management programs for medical devices |
| AS/NZS 4249:1994 | Electrical safety practices – Film, video and television sites |
| AS/NZS 4763 (INT):2006 | Safety of portable inverters |
| AS/NZS 5761:2005 | In-service safety inspection and testing – Second-hand electrical equipment prior to sale |
| AS/NZS 5762:2005 | In-service safety inspection and testing – Repaired electrical equipment |
| AS/NZS ISO 9000:2005 | Quality management systems – Series of Standards |
| AS/NZS ISO 31000:2009 | Risk management |
| AS/NZS 60335.1:2002 | Household and similar electrical appliances – General requirements |
| AS/NZS 61008.1:2004 | Residual current operated circuit-breakers without integral overcurrent protection for household and similar uses (RCCBs) – General rules |
| AS/NZS 61009.1:2004 | Residual current operated circuit-breakers with integral overcurrent protection for household and similar uses (RCBOs) – General rules |

AUSTRALIAN STANDARDS

| | |
|----------------|---|
| AS 1674.2:2007 | Safety in welding and allied processes – Electrical |
| AS 2790:1989 | Electricity generating sets – Transportable (Up to 25 kW) |
| AS 60529:2004 | Degrees of protection provided by enclosures (IP Code) |

NEW ZEALAND STANDARD

| | |
|---------------|---|
| NZS 6115:2006 | Electrical Installations – Mobile electro-medical connectable installations |
