National foreword

This British Standard has been prepared under the direction of the Power Electrical Engineering Standards Committee and is the English language version of EN 50038:1987 “*Low-voltage switchgear and controlgear for industrial use. Inductive proximity switches. Form D, for alternating current, 2 terminals*” published by the European Committee for Electrotechnical Standardization (CENELEC).

This standard supersedes BS 6123:1982 which is withdrawn.

Terminology and conventions. The text of the European Standard may use some terminology and conventions that differ from those commonly used in British Standards.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
