

Rubber latex, synthetic — Determination of mechanical stability

Part 2: Moderate-speed method under load

ICS 83.040.10

National foreword

This British Standard is the UK implementation of ISO 2006-2:2009.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Rubber - Raw, natural and synthetic, including latex and carbon black.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 October 2009.
