

# Workplace atmospheres — Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents

The European Standard EN 14042:2003 has the status of a  
British Standard

ICS 13.040.30

# National foreword

This British Standard is the official English language version of EN 14042:2003.

The UK participation in its preparation was entrusted by Technical Committee EH/2, Air Quality, to Subcommittee EH/2/2, Workspace atmospheres, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

### Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 24 April 2003

### Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 40, an inside back cover and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

English version

## Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents

Atmosphères des lieux de travail - Guide pour l'application et l'utilisation de procédures permettant d'évaluer l'exposition aux agents chimiques et biologiques

Arbeitsplatzatmosphäre - Leitfaden für die Anwendung und den Einsatz von Verfahren und Geräten zur Ermittlung chemischer und biologischer Arbeitsstoffe

This European Standard was approved by CEN on 23 September 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

## Contents

Foreword .....	4
Introduction .....	5
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions .....	6
4 Measurement objectives and strategy .....	9
4.1 General .....	9
4.2 EN 689 .....	9
4.2.1 General .....	9
4.2.2 Occupational exposure assessment .....	9
4.2.3 Periodic measurements .....	10
4.2.4 Reassessment .....	10
4.2.5 Measurement strategy .....	10
4.3 EN 482 .....	11
4.4 Other tasks .....	11
5 Selection of the measurement procedure or device .....	12
5.1 General .....	12
5.2 Selection flow chart .....	13
5.3 Selectivity requirements .....	16
5.4 The influence of environmental parameters .....	17
5.5 Fitness for purpose .....	17
6 Operating principles and characteristics .....	17
6.1 General .....	17
6.2 Measurement of chemical agents .....	18
6.2.1 Short term detector tubes .....	18
6.2.2 Procedures using an impinger/bubbler as sampler .....	19
6.2.3 Procedures using a denuder as sampler .....	20
6.2.4 Procedures using a particle selector to sample size fractions .....	21
6.2.5 Procedures to measure chemical agents present as mixtures of particles and vapour .....	22
6.2.6 Procedures using pumped samplers for gases and vapours .....	23
6.2.7 Procedures using diffusive samplers .....	24
6.2.8 Procedures to measure metals and metalloids in airborne particles .....	25
6.2.9 Procedures using bags and canisters for sampling .....	26
6.3 Measurement of airborne micro-organisms and endotoxin .....	27
6.3.1 Methods using an impactor as sampler .....	27
6.3.2 Procedures using impingers as samplers .....	28
6.3.3 Procedures using filtration samplers .....	29
7 Operation of the measuring devices .....	29
7.1 Guidance for use of measuring procedures and personal, portable and transportable measuring devices .....	29
7.1.1 General .....	29
7.1.2 Transportation .....	30
7.1.3 Storage conditions and shelf life .....	30
7.1.4 Field measurements .....	30
7.1.5 Inspection and field check .....	31
7.2 Guidance for use of fixed measuring devices .....	31
7.2.1 General .....	31
7.2.2 Installation .....	32
7.2.3 Location .....	32
7.2.4 Inspection and field check .....	33

8	Recommendations on the use of sampling pumps .....	34
8.1	General.....	34
8.2	Factors influencing the flow rate stability of a pump .....	34
8.3	Flow rate calibration .....	35
8.4	Calculation of flow rates and sampling volumes .....	36
8.4.1	Mean volumetric flow rate.....	36
8.4.2	Sampling volume .....	36
9	Maintenance and calibration .....	37
10	Disposal of measuring devices .....	38
11	Requirements for training .....	38
12	Quality assurance .....	38
	Bibliography .....	39

## Foreword

This document (EN 14042:2003) has been prepared by Technical Committee CEN/TC 137 “Assessment of workplace exposure”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2003, and conflicting national standards shall be withdrawn at the latest by October 2003.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.

This document includes a Bibliography.
