Geometrical product specifications (GPS) — Dimensional and geometrical tolerances for moulded parts

Part 4: General tolerances for castings using profile
tolerancing in a general datum system

National foreword

This British Standard is the UK implementation of ISO 8062-4:2017. It partially supersedes BS EN ISO 8062-3:2007, which remains current.

The UK participation in its preparation was entrusted to Technical Committee TDW/4, Technical Product Realization.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
