

BS 4660 : 1973

UDC 621.643.29 : 678.743.22 : 696.133

---

Specification for  
**Unplasticized PVC**  
underground drain pipe  
and fittings

---

This British Standard, having been approved by the Plastics Industry Standards Committee, was published under the authority of the Executive Board on 15 October, 1973.

© British Standards Institution, 1973

First published February 1971

First revision October 1973

ISBN: 0 580 07836 1

#### Copyright

Users of British Standards are reminded that copyright subsists in all BSI publications. No part of this publication may be reproduced in any form without the prior permission in writing of BSI. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols and size, type or grade designation. Enquiries should be addressed to the BSI Secretariat.

#### Contract requirements

Attention is drawn to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

#### Revision of British Standards

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions. Full information on all BSI publications, numbering over 6000, will be found in the *British Standards Yearbook*. This information is supplemented by details published each month in *BSI News* of new publications, revisions and amendments.

*BSI News* is available to Subscribing Members of the Institution. All other publications may be purchased direct from Sales Department. Enquiries concerning subscribing membership, which has considerable advantages, will be welcomed, and should be made to Subscriptions Department. Both departments are located at:

101 Pentonville Road, London N1 9ND (Telephone 01-837 8801; Telex 23218).

The following BSI references relate to the work on this standard:

Committee reference PLC/9, PLC/9/3 Draft for comment 69/14552.

## Co-operating organizations

The Plastics Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and industrial organizations:

British Electrical and Allied Manufacturers' Association  
\*British Plastics Federation  
British Resin Manufacturers' Association  
\*Department of the Environment, Building Research Establishment  
Department of Trade and Industry  
Electrical and Electronic Insulation Association  
Electrical Insulation Equipment Manufacturers' Association  
Electrical Research Association  
\*Engineering Equipment Users' Association

\*Ministry of Defence, Army Department  
\*Ministry of Defence, Navy Department  
\*Oil Companies' Materials Association  
Plastics Institute  
Post Office  
Resin Manufacturers' Association  
\*Royal Institute of British Architects  
Royal Institute of Public Health and Hygiene  
Rubber and Plastics Research Association of Great Britain  
\*Society of Motor Manufacturers and Traders Ltd

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committees entrusted with the preparation of this British Standard:

Agrément Board  
Association of Industrialized Building Component Manufacturers Ltd  
Association of Public Health Inspectors  
British Chemical and Dyestuffs Traders' Association Ltd  
British Compressed Air Society  
British Rubber Manufacturers' Association Ltd  
British Waterworks Association  
Chemical Industries Association  
Copper Tube Fittings Manufacturers' Association  
Dairy Trade Federation  
Department of the Environment  
Gas Council  
Gas List Tube Association  
Greater London Council  
Institute of Brewing

Institute of Plumbing  
Institution of Civil Engineers  
Institution of Municipal Engineers  
Institution of Public Health Engineers  
Institution of Water Engineers  
Lloyd's Register of Shipping  
Ministry of Agriculture, Fisheries and Food  
National Coal Board  
National Federation of Plumbers and Domestic Heating Engineers  
National Institute for Research in Dairying  
Plastic Pipe Manufacturers' Society  
Royal Society of Health  
Society of Builders' Merchants  
Water Companies' Association  
Water Research Association

## BS 4660 : 1973

## Contents

	Page		Page
Co-operating organizations	Inside cover		
Foreword	3	Tables	
<b>Specification</b>		1. Dimensions of pipe and fittings	5
1. Scope	4	2. Type tests	6
2. Material	4	3. Quality control tests	6
3. Colour	4	4. Minimum dimensions of sockets with sealing rings	10
4. Freedom from defects	4	5. Minimum dimensions of solvent cement sockets	10
5. Dimensions	5	6. Configuration and minimum radii of bends and junctions	11
6. Length of pipe	5	7. Dimensions of inspection doors	13
7. Marking	6	8. <i>Table deleted.</i>	
8. Sealing components	6	9. <i>Table deleted.</i>	
9. Testing	6	10. <i>Table deleted.</i>	
10. Sampling procedures	7	<b>Figures</b>	
11. Requirements for pipe and fittings	8	1. Socket dimensions	9
12. Combined temperature cycling and external loading requirement	8	1a. Positions for measurement of snap cap wall thicknesses	
13. Requirements for elastomeric sealing ring joint assemblies	8	2. Short radius bends	10
14. Requirement for solvent welded joint assemblies	8	3. Long radius bends	10
<b>Appendices</b>		4. Single junctions	11
A. Methods of test for resistance to acid and alkali (type test)	14	5. Illustration of minimum depth of spigot	12
B. Tensile test (type test)	14	6a. Socket plug (push fit with or without stop flange)	12
C. Heat reversion test for pipes (quality control test)	14	6b. Socket plug (with screwed access cap)	12
D. Test for impact resistance of pipe at 20 °C (quality control test)	15	6c. Single socket	12
E. Stress relief test (quality control test for injection mouldings)	16	6d. Double socket	12
F. Hydrostatic pressure test (quality control test for factory made solvent welded assemblies)	16	7a. Level invert reducer	12
G. Diameter distortion test (type test for jointed assemblies)	17	7b. Access fittings with inspection doors	12
H. Angular deflection test (type test)	18	7c. Adaptor	12
J. Elevated temperature cycling test on fittings (type test)	18	8. Effective lengths of pipe	13
K. Combined temperature cycling and external loading tests (performance test)	18	9. Suitable type of impact testing machine	15
L. Sampling quantities for fittings	19	10. Essential features of apparatus for diameter distortion test	17
M. <i>Text deleted.</i>		11. <i>Figure deleted.</i>	
		12. <i>Figure deleted.</i>	
		13. <i>Figure deleted.</i>	
		14. <i>Figure deleted.</i>	
		15. <i>Figure deleted.</i>	
		16. <i>Figure deleted.</i>	
		17. <i>Figure deleted.</i>
