# Legal Notice for Standards

Canadian Standards Association (operating as “CSA Group”) develops standards through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA Group administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

## Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document’s fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party’s intellectual property rights. CSA Group does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA Group makes no representations or warranties regarding this document’s compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA GROUP, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA GROUP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA Group is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA Group accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA Group is a private not-for-profit company that publishes voluntary standards and related documents. CSA Group has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

## Intellectual property rights and ownership

As between CSA Group and the users of this document (whether it be in printed or electronic form), CSA Group is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA Group’s and/or others’ intellectual property and may give rise to a right in CSA Group and/or others to seek legal redress for such use, modification, copying, or disclosure. To the extent permitted by licence or by law, CSA Group reserves all intellectual property rights in this document.

## Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA Group shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

## Authorized use of this document

This document is being provided by CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA Group; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

# Gas Trade Practice Exam

Updated to the 2020 edition of CSA B149.1. The Gas Trade Practice Exam is an extension of the CSA Gas Trade training materials and is geared to helping Gas Technicians/Fitters pass the certification exam.

## Learn More

For more information or to purchase the Gas Trade Practice Exam, phone 1 800 463 6727 or visit [store.csagroup.org](https://store.csagroup.org)

- Includes over 1,400 sample exam questions.
- This unique prep tool allows students to both test their acquired technical knowledge and practice writing a mock exam.
- Ideal for users of CSA B149.1 and the Gas Trade 3, Gas Trade 2 or Gas Fitter B programs.
- Wrong answer report provides correct answers and highlights code requirements.
- Available in iOS, android or desktop.

**Canadian Standards Association (operating as “CSA Group”)**, under whose auspices this National Standard has been produced, was chartered in 1919 and accredited by the Standards Council of Canada to the National Standards system in 1973. It is a not-for-profit, nonstatutory, voluntary membership association engaged in standards development and certification activities.

CSA Group standards reflect a national consensus of producers and users — including manufacturers, consumers, retailers, unions and professional organizations, and governmental agencies. The standards are used widely by industry and commerce and often adopted by municipal, provincial, and federal governments in their regulations, particularly in the fields of health, safety, building and construction, and the environment.

Individuals, companies, and associations across Canada indicate their support for CSA Group’s standards development by volunteering their time and skills to Committee work and supporting CSA Group’s objectives through sustaining memberships. The more than 7000 committee volunteers and the 2000 sustaining memberships together form CSA Group’s total membership from which its Directors are chosen. Sustaining memberships represent a major source of income for CSA Group’s standards development activities.

CSA Group offers certification and testing services in support of and as an extension to its standards development activities. To ensure the integrity of its certification process, CSA Group regularly and continually audits and inspects products that bear the CSA Group Mark.

In addition to its head office and laboratory complex in Toronto, CSA Group has regional branch offices in major centres across Canada and inspection and testing agencies in eight countries. Since 1919, CSA Group has developed the necessary expertise to meet its corporate mission: CSA Group is an independent service organization whose mission is to provide an open and effective forum for activities facilitating the exchange of goods and services through the use of standards, certification and related services to meet national and international needs.

Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

Interprovincial Gas Advisory Council	6
Technical Committee on Installation Code for Natural Gas and Propane Appliances	8
Preface	13
<b>0 Introduction</b>	<b>15</b>
<b>1 Scope</b>	<b>15</b>
<b>2 Reference publications</b>	<b>16</b>
<b>3 Definitions</b>	<b>21</b>
<b>4 General</b>	<b>36</b>
4.1 Application	36
4.2 Approval of appliances, accessories, components, equipment, and material	37
4.3 Responsibilities of the installer	37
4.4 Training and quality of labour	38
4.5 Suitability of use	38
4.6 Meter and service regulator installations	39
4.7 Electrical connections and components	39
4.8 Mobile homes and recreational vehicles	40
4.9 Hazardous and corrosive locations	40
4.10 Smoking	41
4.11 Isolation of safety devices	41
4.12 Leak detection	41
4.13 Appliance clearances to combustible material	41
4.14 Accessibility	46
4.15 Outdoor installations	47
4.16 Appliances in garages	47
4.17 Appliance ductwork connections	47
4.18 Combined heating systems	48
4.19 Appliances protected by automatic fire-extinguishing systems	48
4.20 Control of appliances with self-energizing pilots	48
4.21 Defective heat exchangers	49
4.22 High-altitude installations	49
4.23 Protection of appliances from physical damage	49
4.24 Odorization	49
4.25 Mobile homes and recreational vehicles	50
<b>5 Pressure controls</b>	<b>52</b>
5.1 Delivery pressure	52
5.2 Pressure regulators	54
5.2.1 General	54
5.2.2 Additional requirements for delivery pressures of 2 psig (14 kPa) or less	55
5.2.3 Additional requirements for delivery pressures greater than 2 psig (14 kPa)	56

5.2.4	Additional requirements for pressure regulators for natural gas applications	57
5.3	Overpressure protection devices	57
5.4	Hydrostatic relief devices for propane applications	58
5.5	Venting of pressure control devices	59
5.5.1	Venting of pressure control devices other than overpressure relief devices	59
5.5.2	Venting of overpressure relief devices	59
5.5.3	Additional requirements for venting of propane pressure control devices	60
5.5.4	Venting exemptions for line pressure regulators	60
5.6	Termination of vents	61
5.7	Appliance and pilot pressure regulators	62
5.7.1	Appliance and pilot pressure regulators in propane applications	62
5.7.2	Appliance and pilot pressure regulators in natural gas applications	62
<b>6</b>	<b>Gas piping systems</b>	<b>63</b>
6.1	General	63
6.2	Material	63
6.3	Size	65
6.4	Volume of gas to be used for sizing gas piping systems	67
6.5	Allowable pressure and pressure drop	67
6.6	Extensions	68
6.7	Location	68
6.8	Piping practices	69
6.9	Joints and connections	70
6.10	Branch piping outlets	71
6.11	Appliance connections	71
6.12	Piping outlets	72
6.13	Drip and dirt pockets	73
6.14	Prohibited practices	73
6.15	Underground piping and tubing	74
6.16	Protection of piping and tubing	75
6.17	Identification of piping or tubing	77
6.18	Manual shut-off valves	78
6.19	Manual-reset valves	79
6.20	Gas hose and fittings	79
6.21	Gas connectors	80
6.22	Testing of piping, tubing, hose, and fittings	82
6.23	Purging of gas piping systems after leak testing	84
6.24	Purging gas from a piping or tubing system	85
6.25	Rooftop gas piping systems	85
6.26	Inspection	86
6.27	Highway vehicles, recreational vehicles, mobile outdoor food service units, and wash-mobiles	86
<b>7</b>	<b>Installation of specific types of appliances</b>	<b>87</b>
7.1	Boilers	87
7.2	Generators, compressors/pressure boosters, engines, and turbines	87
7.2.1	General requirements	87
7.2.2	Compressors/pressure boosters	88
7.2.3	Emergency generators	89

7.2.4	Non-motive engines and turbines	90
7.2.5	Additional requirements for gas engines and turbines in buildings	90
7.3	Carbon dioxide generators	92
7.4	Commercial-type clothes dryers	92
7.5	Domestic-type clothes dryers	93
7.6	Conversions	93
7.7	Conversion burners	94
7.8	Conversion of warm air furnaces	94
7.9	Conversion of ranges	95
7.10	Counter appliances	95
7.11	Direct-vent appliances	96
7.12	Furnaces used with cooling units	96
7.13	Central furnaces	96
7.14	Downflow furnaces	97
7.15	Duct furnaces	97
7.16	Horizontal furnaces	98
7.17	Wall furnaces (recessed heaters)	98
7.18	Construction heaters and torches	99
7.19	Direct-fired door air heaters	100
7.20	Direct-fired make-up air heaters (DFMAH)	100
7.21	Non-recirculating direct gas-fired industrial air heaters (DFIAH)	102
7.22	Direct gas-fired process air heaters (DFPAH)	104
7.23	Infrared heaters	106
7.24	Room heaters	107
7.25	Decorative appliances and gas logs	108
7.26	Pool heaters	109
7.27	Water heaters	110
7.28	Unit heaters	111
7.29	Hotplates	111
7.30	Incinerators	111
7.31	Lighting	112
7.32	Commercial cooking appliances	112
7.33	Residential-type ranges	113
7.34	Refrigerators	114
7.35	Operation of appliances at shows, exhibitions, or other similar events	114
<b>8</b>	<b>Venting systems and air supply for appliances</b>	<b>114</b>
8.1	General	114
8.2	Air-supply determination for central-heating furnaces, boilers, and hot-water heaters	115
8.3	Air-supply openings and ducts	122
8.4	Air-supply requirements for appliances having a total input exceeding 400 000 Btu/h (120 kW) (see Clause <a href="#">8.1.4</a> )	123
8.5	Air-supply dampers, louvres, and grilles	124
8.6	Conditions created by exhaust fans, air-supply fans, circulating fans, or fireplaces	124
8.7	Engineered installations	125
8.8	Air supply by mechanical means	125
8.9	Appliance venting	125
8.10	Methods of venting appliances	126
8.11	Vent and chimney requirements	128

8.12	Chimneys	128
8.13	Vent and chimney sizing	130
8.14	Vent and chimney termination	130
8.15	Vent and chimney support	135
8.16	Vents and chimneys serving two or more appliances	135
8.17	Vents outside buildings	136
8.18	Vent connectors	136
8.19	Chimney connections	140
8.20	Size and height of interconnected vent connectors	140
8.21	Multi-storey venting	140
8.22	Dampers and attachments	141
8.23	Draft hoods	142
8.24	Venting arrangements	142
8.25	Draft regulators	143
8.26	Automatic vent damper or automatic flue damper	143
8.27	Manually operated flue dampers	144
8.28	Installation of draft-control devices	144
8.29	Induced- or forced-draft devices	145
8.30	Venting of appliances into canopies	145
8.31	Heat reclaimers	145
<b>9</b>	<b>Natural gas compressors and cylinders</b>	<b>146</b>
9.1	Installation of compressors	146
9.2	Requirements for cylinders	146
9.3	Cylinder filling and cylinders	147
9.4	Cylinder storage	148
9.5	Cylinders connected for use	148
<b>10</b>	<b>Residential fuelling appliances (RFAs) and vehicle fueling appliances (VFAs) used for natural gas without storage</b>	<b>149</b>
10.1	Installation	149
10.2	Pressure relief devices and other vents and vent lines	150
10.3	Piping, tubing, and hose	150
10.4	Testing of piping, tubing, hose, and fittings	151
10.5	Installation of safety equipment, signs, and/or symbols	151
10.6	Refuelling of vehicles	151
<hr/>		
Annex A (informative) — Sizing and capacities of piping and tubing for natural gas		152
Annex B (informative) — Sizing and capacities of piping and tubing for propane		219
Annex C (informative) — Vent sizing tables for Category I natural gas and propane appliances		270
Annex D (informative) — Customer's meter and service regulator installations		333
Annex E (informative) — Example of piping design sizing (imperial and metric)		335
Annex F (informative) — Suggested general dimensions for draft hoods		338
Annex G (informative) — Piping expansion and flexibility		342
Annex H (normative) — Purging of piping and tubing systems where a readily accessible burner is not available or where an appliance is not equipped with a continuous pilot		344
Annex I (informative) — General information		347
Annex J (normative) — Acceptance criteria for visual inspection of welds		356
Annex K (informative) — Pressure regulators and overpressure protection devices		359
