National foreword

This standard has been prepared by Technical Committee ISO/TC 43 "Acoustics", Subcommittee SC 1 "Noise" (Secretariat: DS, Denmark), Working Group WG 28 "Basic machinery noise emission standards" in collaboration with Technical Committee CEN/TC 211 "Acoustics" (Secretariat: DS, Denmark).

The responsible German body involved in its preparation was the *Normenausschuss Akustik, Lärminderung und Schwingungstechnik im DIN und VDI* (Acoustics, Noise Control and Vibration Engineering Standards Committee in DIN and VDI), Working Committee NA 001-01-04 AA *Geräuschemission von Maschinen und Anlagen; Messung, Minderung, Datensammlung*.

Amendment of the European Machinery Directive has made it necessary to review Annexes ZA and ZB in terms of the essential requirements of EU Directive 98/37/EC and the revised Directive, 2006/42/EC. The technical substance of the standard has not been changed.

The DIN Standards corresponding to the International Standards referred to in this document are shown below. The IEC numbers are listed in the currently valid five-digit versions, although they are cited in the text by their last three digits only (i.e. without "60").

The national standards are given in Annex NA "Bibliography".

Amendments

This standard differs from DIN EN ISO 11203:1996-07 as follows:

- Annexes ZA and ZB have been supplemented to show the relationship between this standard and the Machinery Directive 98/37/EC and the new revised Machinery Directive 2006/42/EC.
