National foreword

This standard has been prepared by Technical Committee ISO/TC 1 “Screw threads”, Subcommittee SC 1 “Basic data”. The responsible German body involved in its preparation was the *Normenausschuss Technische Grundlagen* (Fundamental Technical Standards Committee), Section 02 *Gewinde*.

Publication of this standard is in line with the resolution of Section 02 to issue ISO Standards on general-purpose metric screw threads as German Standards. It is intended to resubmit an application to the European Committee for Standardization (CEN) for the ISO standards on general-purpose metric screw threads to be adopted as European Standards.

The DIN Standard corresponding to the International Standard referred to in this document is as follows:

ISO 5408:1983 DIN 2244

Amendments

This standard differs from DIN ISO 724:1999-11 as follows:

- a) The references to ISO 86 and ISO 261 have been transferred from clause 2 “Normative references” to Bibliography.
- b) The reference to ISO 5408 in clause 2 has been updated.
- c) A pitch of 8 has been added for nominal diameters = major diameters 125 mm, 130 mm and 140 mm.
