

## DIN EN 12810-2

**DIN**

ICS 91.220

This standard, together with  
DIN EN 12810-1, March 2004  
edition, supersedes DIN 4420-4,  
December 1988 edition.

**Façade scaffolds made of prefabricated components**

Part 2: Particular methods of structural design

English version of DIN EN 12810-2

Fassadengerüste aus vorgefertigten Bauteilen – Teil 2: Besondere Bemessungsverfahren und Nachweise

**European Standard EN 12810-2 : 2003 has the status of a DIN Standard.***A comma is used as the decimal marker.***National foreword**

This standard has been prepared by CEN/TC 53 'Temporary works equipment' (Secretariat: Germany). The responsible German body involved in its preparation was the *Normenausschuss Bauwesen* (Building and Civil Engineering Standards Committee), Technical Committee 11.05.00 *Arbeits- und Schutzgerüste*.

**Amendments**

DIN 4420-4, December 1988 edition, has been superseded by the specifications of EN 12810-2.

**Previous edition**

DIN 4420-4: 1988-12.

Document comprises 23 pages.

**English version**

**Façade scaffolds made of prefabricated components**

**Part 2: Particular methods of structural design**

Echafaudages de façade à composants préfabriqués – Partie 2:  
Méthodes de conception et d'évaluation particulières

Fassadengerüste aus vorgefertigten Bauteilen – Teil 2: Besondere Bemessungsverfahren und Nachweise

This European Standard was approved by CEN on 2003-09-04.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, the Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland, and the United Kingdom.

## Contents

	Page
1 Scope.....	4
2 Normative references .....	4
3 Terms and definitions.....	4
4 Structural design.....	4
4.1 General .....	4
4.2 Models for structural analysis .....	6
4.3 Tests on configurations and connection devices .....	10
4.3.1 Tests for stiffness and resistance.....	10
4.3.2 Vibration test .....	10
4.4 Tests on a representative section of a system configuration .....	11
4.4.1 General .....	11
4.4.2 Type 1 test for verification of significant load displacement behaviour.....	11
4.4.3 Type 2 test for the verification of the elastic buckling load factor $\alpha_{cr}$ .....	13
4.4.3.1 Test assembly.....	13
4.4.3.2 Test procedure .....	13
4.4.3.3 Validation of $\alpha_{cr}$ .....	14
Annex A (normative) Typical tests for connection devices and configurations .....	14
Annex B (normative) Drop tests for platforms and their supports .....	20
Annex C (normative) Repeated loading tests for welded aluminium treads.....	22
Bibliography .....	22
