

Tests for general properties of aggregates

Methods for sampling
English version of DIN EN 932-1

DIN**EN 932-1**

ICS 91.100.20

Supersedes parts of DIN 52101,
March 1988 edition.

Descriptors: Construction, aggregates, testing.

Prüfverfahren für allgemeine Eigenschaften von Gesteinskörnungen –
Teil 1: Probenahmeverfahren

European Standard EN 932-1 : 1996 has the status of a DIN Standard.**National foreword**

This standard has been prepared by CEN/TC 154.

The responsible German body involved in its preparation was the *Normenausschuß Materialprüfung* (Materials Testing Standards Committee), Technical Committee *Prüfung von Naturstein und Gesteinskörnungen*.

Amendments

In comparison with DIN 52101, March 1988 edition, the following amendments have been made.

- a) The scope has been restricted to include aggregates only (the sampling of natural stone will be dealt with in another European Standard).
- b) Information on sampling techniques and statistical data have been included (cf. Annexes A to E).

Previous editions

DIN DVM 2101: 1931-03, 1937-01; DIN 52101: 1943-03, 1965-09, 1988-03.

EN comprises 27 pages.

ICS 91.100.20

Descriptors: Construction, aggregates, testing.

English version

Tests for general properties of aggregates

Part 1: Methods for sampling

Essais pour déterminer les propriétés
générales des granulats – Partie 1:
Méthodes d'échantillonnage

Prüfverfahren für allgemeine Eigenschaften
von Gesteinskörnungen – Teil 1: Probe-
nahmeverfahren

This European Standard was approved by CEN on 1996-07-26.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
