## Gas/air ratio controls for gas burners and gas burning appliances

Part 2: Electronic types

English version of DIN EN 12067-2

Gas-Luft-Verbundregeleinrichtungen für Gasbrenner und Gasgeräte – Teil 2: Elektronische Ausführung

**European Standard EN 12067-2 : 2004 has the status of a DIN Standard.**

*A comma is used as the decimal marker.*

This standard has been included in the body of Codes of practice for gas issued by the *DVGW Deutscher Verein des Gas- und Wasserfaches e.V.* (German Association of Gas and Water Engineers).

### National foreword

This standard has been prepared by CEN/TC 58 'Safety and control devices for gas-burners and gas-burning appliances' (Secretariat: United Kingdom).

The responsible German body involved in its preparation was the *Normenausschuss Heiz- und Raum-lufttechnik* (HVAC Standards Committee).

Document comprises 24 pages.

This European Standard was approved by CEN on 2004-02-02.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, and the United Kingdom.
