FOREWORD

This guide publication for Selecting Aerial Cable Messengers, ICEA P-79-561, was developed by the Insulated Cable Engineers Association, Inc. (ICEA)

ICEA standards and guides are adopted in the public interest and are designed to eliminate misunderstanding between the manufacturer and the user and to assist the user in selecting and obtaining the proper product for his particular need. Existence of an ICEA standard or guide does not in any respect preclude the manufacture or use of products not conforming to the standard or guide. The user of this Guide is cautioned to observe any health or safety regulations and rules relative to the manufacture and use of cable made in conformity with this Guide.

Request for interpretation of this Guide must be submitted in writing to the Insulated Cable Engineers Association, Inc. P.O. Box P, South Yarmouth, Massachusetts 02664. An official written interpretation will be provided. Suggestions for improvements gained in the use of this Guide will be welcomed by the Association.
