### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: [www.iec.ch/webstore/custserv](http://www.iec.ch/webstore/custserv)

### A propos de la CEI

La Commission Electrotechnique Internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: [www.iec.ch/searchpub/cur\\_fut-f.htm](http://www.iec.ch/searchpub/cur_fut-f.htm)

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.

- Service Clients: [www.iec.ch/webstore/custserv/custserv\\_entry-f.htm](http://www.iec.ch/webstore/custserv/custserv_entry-f.htm)

| 5.6 Marking and indications.....                                                                                                                                                    | 12 |
| 6 Structure and content of the test report .....                                                                                                                                    | 13 |
| 6.1 General.....                                                                                                                                                                    | 13 |
| 6.2 Report identification .....                                                                                                                                                     | 13 |
| 6.2.1 Title or subject of the report.....                                                                                                                                           | 13 |
| 6.2.2 Name, address and telephone number of the test laboratory .....                                                                                                               | 13 |
| 6.2.3 Name, address and telephone number of the sub test laboratory<br>where the test was carried out if different from company which has<br>been assigned to perform the test..... | 13 |
| 6.2.4 Unique identification number (or serial number) of the test report .....                                                                                                      | 13 |
| 6.2.5 Name and address of the vendor .....                                                                                                                                          | 13 |
| 6.2.6 Report shall be paginated and the total number of pages indicated .....                                                                                                       | 13 |
| 6.2.7 Date of issue of report .....                                                                                                                                                 | 13 |
| 6.2.8 Date(s) of performance of test(s) .....                                                                                                                                       | 13 |

|       |                                                                                                                                                         |    |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 6.2.9 | Signature and title, or an equivalent identification of the person(s) authorized to sign for the testing laboratory for the content of the report ..... | 13 |
| 6.3   | Signature and title of person(s) conducting the test .....                                                                                              | 14 |
| 6.4   | Specimen description .....                                                                                                                              | 14 |
| 6.4.1 | Sample description .....                                                                                                                                | 14 |
| 6.4.2 | Detailed description and unambiguous identification of the test sample and/or test assembly .....                                                       | 14 |
| 6.4.3 | Characterization and condition of the test sample and/or test assembly .....                                                                            | 14 |
| 6.4.4 | Sampling procedure, where relevant.....                                                                                                                 | 14 |
| 6.4.5 | Date of receipt of test items.....                                                                                                                      | 14 |
| 6.4.6 | Photographs, drawings or any other visual documentation, if available.....                                                                              | 14 |
| 6.4.7 | Standards and references.....                                                                                                                           | 14 |
| 6.4.8 | Identification of the test standard used and the date of issue of the standard .....                                                                    | 14 |
| 6.4.9 | Other relevant documentation with the documentation date .....                                                                                          | 14 |
| 6.5   | Test procedure .....                                                                                                                                    | 14 |
| 6.5.1 | Description of the test procedure .....                                                                                                                 | 14 |
| 6.5.2 | Justification for any deviations from, additions to or exclusions from the referenced standard.....                                                     | 14 |
| 6.5.3 | Any other information relevant to a specific test such as environmental conditions .....                                                                | 14 |
| 6.5.4 | Configuration of testing assembly .....                                                                                                                 | 14 |
| 6.5.5 | Location of the arrangement in the testing area and measuring techniques.....                                                                           | 14 |
| 6.6   | Testing equipment, description .....                                                                                                                    | 14 |
| 6.7   | Measuring instruments description .....                                                                                                                 | 14 |
| 6.8   | Results and parameters recorded.....                                                                                                                    | 14 |
| 6.8.1 | The measured, observed or derived results shall be clearly identified, at least for .....                                                               | 14 |
| 6.8.2 | Statement pass/fail.....                                                                                                                                | 15 |
|       | Bibliography.....                                                                                                                                       | 16 |
|       | Figure 1 – Configuration of four–electrode soil box .....                                                                                               | 11 |
