First edition
2006-12

Wind turbines –

**Part 25-3:
Communications for monitoring
and control of wind power plants –
Information exchange models**

Reference number
IEC 61400-25-3:2006(E)

Publication numbering

As from 1 January 1997 all IEC publications are issued with a designation in the 60000 series. For example, IEC 34-1 is now referred to as IEC 60034-1.

Consolidated editions

The IEC is now publishing consolidated versions of its publications. For example, edition numbers 1.0, 1.1 and 1.2 refer, respectively, to the base publication, the base publication incorporating amendment 1 and the base publication incorporating amendments 1 and 2.

Further information on IEC publications

The technical content of IEC publications is kept under constant review by the IEC, thus ensuring that the content reflects current technology. Information relating to this publication, including its validity, is available in the IEC Catalogue of publications (see below) in addition to new editions, amendments and corrigenda. Information on the subjects under consideration and work in progress undertaken by the technical committee which has prepared this publication, as well as the list of publications issued, is also available from the following:

- **IEC Web Site** (www.iec.ch)
- **Catalogue of IEC publications**
The on-line catalogue on the IEC web site (www.iec.ch/searchpub) enables you to search by a variety of criteria including text searches, technical committees and date of publication. On-line information is also available on recently issued publications, withdrawn and replaced publications, as well as corrigenda.
- **IEC Just Published**
This summary of recently issued publications (www.iec.ch/online_news/justpub) is also available by email. Please contact the Customer Service Centre (see below) for further information.
- **Customer Service Centre**
If you have any questions regarding this publication or need further assistance, please contact the Customer Service Centre:

CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope.....	7
2 Normative references	8
3 Terms and definitions	9
4 Abbreviated terms	12
5 General	12
6 Information exchange models overview	13
7 Operational functions	15
7.1 General.....	15
7.2 Association and authorisation model	15
7.3 Control model.....	16
7.4 Monitoring, reporting and logging model.....	16
8 Management functions	18
8.1 General.....	18
8.2 User management/access security model.....	18
8.3 Setup model.....	18
8.4 Time synchronisation model	18
8.5 Diagnostic (self-monitoring) model	18
9 The ACSI for wind power plant information models.....	19
9.1 General.....	19
9.2 Services of Association and authorisation	19
9.3 Services of Server class.....	20
9.4 Services of Logical Device class	20
9.5 Services of Logical Node class.....	21
9.6 Services of Data class.....	21
9.7 Services of DataSet class.....	21
9.8 Services of Report Control Block class	22
9.9 Services of Log Control Block and Log classes	24
9.10 Services of control class.....	26
Annex A (informative) Examples of reporting and logging services.....	27
Annex B (normative) Relationship between ACSI Services and Functional Constraints	29
Annex C (informative) Relationship between ACSI defined in IEC 61850-7-2 and IEC 61400-25-3	31
Figure 1 – Conceptual communication model of the IEC 61400-25 series	8
