## **Electrical installations in ships –**

### **Part 351:**

**Insulating materials for shipboard  
and offshore units, power, control,  
instrumentation, telecommunication  
and data cables**

Reference number  
IEC 60092-351:2004(E)

## Publication numbering

As from 1 January 1997 all IEC publications are issued with a designation in the 60000 series. For example, IEC 34-1 is now referred to as IEC 60034-1.

## Consolidated editions

The IEC is now publishing consolidated versions of its publications. For example, edition numbers 1.0, 1.1 and 1.2 refer, respectively, to the base publication, the base publication incorporating amendment 1 and the base publication incorporating amendments 1 and 2.

## Further information on IEC publications

The technical content of IEC publications is kept under constant review by the IEC, thus ensuring that the content reflects current technology. Information relating to this publication, including its validity, is available in the IEC Catalogue of publications (see below) in addition to new editions, amendments and corrigenda. Information on the subjects under consideration and work in progress undertaken by the technical committee which has prepared this publication, as well as the list of publications issued, is also available from the following:

- **IEC Web Site ([www.iec.ch](http://www.iec.ch))**
- **Catalogue of IEC publications**  
The on-line catalogue on the IEC web site ([http://www.iec.ch/searchpub/cur\\_fut.htm](http://www.iec.ch/searchpub/cur_fut.htm)) enables you to search by a variety of criteria including text searches, technical committees and date of publication. On-line information is also available on recently issued publications, withdrawn and replaced publications, as well as corrigenda.
- **IEC Just Published**  
This summary of recently issued publications ([http://www.iec.ch/online\\_news/justpub/jp\\_entry.htm](http://www.iec.ch/online_news/justpub/jp_entry.htm)) is also available by email. Please contact the Customer Service Centre (see below) for further information.

## CONTENTS

FOREWORD .....	3
INTRODUCTION .....	5
1 Scope .....	6
2 Normative references .....	6
3 Insulating materials .....	7
3.1 General .....	7
3.2 Electrical characteristics .....	8
3.3 Mechanical characteristics .....	9
3.4 Particular characteristics .....	10
Annex A (normative) Determination of hardness of HEPR and HF HEPR insulation .....	12
Annex B (normative) Determination of the elastic modulus of HEPR and HF HEPR insulation .....	15
Annex C (informative) Ozone resistance test – Alternative test method .....	16
Figure A.1 – Testing surfaces of large radius of curvature .....	13
Figure A.2 – Testing surfaces of small radius of curvature .....	14
Table 1 – Type of insulating compounds, abbreviated designation and maximum rated conductor temperature during normal operation and short circuit .....	7
Table 2 – Test requirements for electrical characteristics of insulating compounds .....	8
Table 3 – Test requirements for mechanical characteristics of insulating compounds .....	9
Table 4 – Test requirements for particular characteristics of insulating compounds .....	10
Table C.1 – Test requirements for ozone resistance of insulating compounds .....	16
