IES Standards and Guides are developed through committee consensus and produced by the IES Office in New York. Careful attention is given to style and accuracy. If any errors are noted in this document, please forward them to Rita Harrold, Director of Educational and Technical Development, at the above address for verification and correction. The IES welcomes and urges feedback and comments.

*Printed in the United States of America.*

*ISBN # 978-0-87995-252-5*

**DISCLAIMER**

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein.
The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

# Contents

Foreword . . . 1

1.0 Introduction . . . 1
1.1 Scope . . . 1
1.2 Document Structure . . . 1

2.0 Core Definitions and Concepts . . . 2
2.1 Ballast/Driver/Transformer . . . 2
2.2 Bus . . . 2
2.3 Controller . . . 2
2.4 Gateway . . . 2
2.5 Graphical User Interface (GUI) . . . 2
2.6 Network . . . 2
2.7 Physical Layer . . . 2
2.8 Program . . . 3
2.9 Protocol/Communication Mode/Method . . . 3
2.10 Multiple Protocols in One System . . . 3
2.11 Open vs. Proprietary Protocols . . . 3
2.12 Topology . . . 3
2.13 User . . . 3

3.0 System Lighting Control Architectures . . . 4

4.0 Technologies for Dimming Control of Light Sources . . . 6
4.1 2-Wire Line Voltage Forward Phase Control for Dimming . . . 6
4.2 2-Wire Line Voltage Reverse Phase Control for Dimming . . . 6
4.3 3-Wire Line Voltage (Power or Class 1) for Fluorescent Dimming . . . 7
4.4 4-Wire Low Voltage 0–10VDC (Class 2) for Fluorescent Dimming . . . 7
4.5 DALI (Class 1 or 2) for Fluorescent Dimming . . . 7
4.6 Pulse Width Modulation (PWM) for LED Dimming . . . 7

5.0 Topology . . . 7
5.1 Daisy Chain / Line . . . 8
5.2 Bus . . . 8
5.3 Star (Hub and Spoke) . . . 8
5.4 Ring . . . 8
5.5 Mesh . . . 8
5.6 Free (Topology Free) . . . 9

6.0 Physical Layer . . . 9
6.1 RS232 . . . 9
6.2 RS485 . . . 9
6.3 Ethernet . . . 9
6.4 USB . . . 10
