## Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee, as the result of proposal for revision of Japanese Industrial Standard submitted by the Japan Chemical Innovation Institute (JCII)/the Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14.

This Standard has been prepared as a result of the revision of the contents of the former standard so as to be in conformity with the present state in which, for the purpose of accommodating to the diversification and popularization of household electric appliances, the quality improvement of the plastics table wares, in particular, in heat resistance and microwave oven resistance is being promoted.

Consequently, **JIS S 2029 : 1984** is replaced with this Standard.

Date of Establishment: 1963-12-01

Date of Revision: 2002-03-20

Date of Public Notice in Official Gazette: 2002-03-20

Investigated by: Japanese Industrial Standards Committee  
Standards Board

Technical Committee on Consumer Life  
Products
