**T**he NAHB Business Management and Information Technology Committee sponsored the survey and this publication. The NAHB Economics and Housing Policy Group conducted the survey and tabulated the findings. The NAHB Business Management and Information Technology Committee compiled the manuscript. The NAHB Business Management and Information Technology Committee has jurisdiction over matters relating to improving the business management skills of NAHB's builder members in order to enhance their competitiveness, profitability, and professionalism.

In accordance with the NAHB strategic plan objectives, the committee makes policy recommendations on business management issues, develops educational programs, writes and publishes manuals, conducts business management research, and provides consulting assistance to other committees.

The Committee's mission statement is

*"To serve as the leading resource to the building industry in the areas of management, finance, information technology, operations, and human resources"*
