

**Pipe threads for tubes and fittings
where pressure-tight joints are made
on the threads (metric dimensions)**

This British Standard BS 21:1985 has been adopted by the Standards Council of New Zealand for use in New Zealand, pursuant to the provisions of the Standards Act 1988.

NZS/BS 21:1985

Specification for

**Pipe threads for tubes
and fittings where
pressure-tight joints
are made on the threads
(metric dimensions)**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Piping Systems Standards Committee (PSE/-) to Technical Committee PSE/9, upon which the following bodies were represented:

Association of Hydraulic Equipment Manufacturers
 British Compressed Air Society
 British Gas Corporation
 British Hydromechanics Research Association
 British Internal Combustion Engine Manufacturers' Association
 British Malleable Tube Fittings Association
 British Steel Industry
 British Valve Manufacturers' Association Ltd.
 Department of Trade and Industry (National Engineering Laboratory)
 Energy Industries Council
 Engineering Equipment and Materials Users' Association
 Gauge and Tool Makers' Association
 Institution of Civil Engineers
 Institution of Gas Engineers
 Institution of Public Health Engineers
 Institution of Water Engineers and Scientists
 Water Authorities Association
 Water Companies Association
 Wrought Fitting Makers' Association

This British Standard, having been prepared under the direction of the Piping Systems Standards Committee, was published under the authority of the Executive Board and comes into effect on 30 September 1985
