Foreword

(This foreword is not part of this document)

This document is a revision to the TIA.102-AAAD-A Project 25 Block Encryption Protocol specification, and has been submitted to APCO/NASTD/FED by the Telecommunications Industry Association (TIA), as provided for in a Memorandum of Understanding (MOU) dated December, 1993. That MOU provides that APCO/NASTD/FED will devise a Common System Standard for digital public safety communications (the Standard) and that TIA shall provide technical assistance in the development of documentation for the Standard. This document has been developed by the TIA TR8.3 Encryption subcommittee and is being published to provide technical information on the emerging digital techniques for Land Mobile Radio Service.

The symbol “P25” or the wording “Project 25” appearing on the cover sheet of this document when published or in the title of any TIA-102 document or Telecommunications Service Bulletin (TSB) referenced herein, that indicates the APCO/NASTD/FED Project 25 Steering Committee has adopted the document as part of the Standard. The appearance of the abbreviation “P25” or the wording “Project 25” on the cover sheet of this document or in the title of any document referenced herein does not limit the applicability of the information contained in this document to “P25” or “Project 25” implementations exclusively.
