NOTICE

TIA Engineering Standards and Publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for their particular need. The existence of such Standards and Publications shall not in any respect preclude any member or non-member of TIA from manufacturing or selling products not conforming to such Standards and Publications. Neither shall the existence of such Standards and Publications preclude their voluntary use by Non-TIA members, either domestically or internationally.

Standards and Publications are adopted by TIA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, TIA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard or Publication.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

(From Project No. ANSI/TIA-PN-606-B, formulated under the cognizance of the TIA TR-42 Telecommunications Cabling Systems, TR-42.6 Subcommittee on Telecommunications Infrastructure and Equipment Administration (606).

NOTICE OF DISCLAIMER AND LIMITATION OF LIABILITY

The document to which this Notice is affixed (the "Document") has been prepared by one or more Engineering Committees or Formulating Groups of the Telecommunications Industry Association ("TIA"). TIA is not the author of the Document contents, but publishes and claims copyright to the Document pursuant to licenses and permission granted by the authors of the contents.

TIA Engineering Committees and Formulating Groups are expected to conduct their affairs in accordance with the TIA Engineering Manual ("Manual"), the current and predecessor versions of which are available at <http://www.tiaonline.org/standards/procedures/manuals>. TIA's function is to administer the process, but not the content, of document preparation in accordance with the Manual and, when appropriate, the policies and procedures of the American National Standards Institute ("ANSI"). TIA does not evaluate, test, verify or investigate the information, accuracy, soundness, or credibility of the contents of the Document. In publishing the Document, TIA disclaims any undertaking to perform any duty owed to or for anyone.

If the Document is identified or marked as a project number (PN) document, or as a standards proposal (SP) document, persons or parties reading or in any way interested in the Document are cautioned that: (a) the Document is a proposal; (b) there is no assurance that the Document will be approved by any Committee of TIA or any other body in its present or any other form; (c) the Document may be amended, modified or changed in the standards development or any editing process.

The use or practice of contents of this Document may involve the use of intellectual property rights ("IPR"), including pending or issued patents, or copyrights, owned by one or more parties. TIA makes no search or investigation for IPR. When IPR consisting of patents and published pending patent applications are claimed and called to TIA's attention, a statement from the holder thereof is requested, all in accordance with the Manual. TIA takes no position with reference to, and disclaims any obligation to investigate or inquire into, the scope or validity of any claims of IPR. TIA will neither be a party to discussions of any licensing terms or conditions, which are instead left to the parties involved, nor will TIA opine or judge whether proposed licensing terms or conditions are reasonable or non-discriminatory. TIA does not warrant or represent that procedures or practices suggested or provided in the Manual have been complied with as respects the Document or its contents.

If the Document contains one or more Normative References to a document published by another organization ("other SSO") engaged in the formulation, development or publication of standards (whether designated as a standard, specification, recommendation or otherwise), whether such reference consists of mandatory, alternate or optional elements (as defined in the TIA Engineering Manual, 4th edition) then (i) TIA disclaims any duty or obligation to search or investigate the records of any other SSO for IPR or letters of assurance relating to any such Normative Reference; (ii) TIA's policy of encouragement of voluntary disclosure (see Engineering Manual Section 6.5.1) of Essential Patent(s) and published pending patent applications shall apply; and (iii) Information as to claims of IPR in the records or publications of the other SSO shall not constitute identification to TIA of a claim of Essential Patent(s) or published pending patent applications.

TIA does not enforce or monitor compliance with the contents of the Document. TIA does not certify, inspect, test or otherwise investigate products, designs or services or any claims of compliance with the contents of the Document.

ALL WARRANTIES, EXPRESS OR IMPLIED, ARE DISCLAIMED, INCLUDING WITHOUT LIMITATION, ANY AND ALL WARRANTIES CONCERNING THE ACCURACY OF THE CONTENTS, ITS FITNESS OR APPROPRIATENESS FOR A PARTICULAR PURPOSE OR USE, ITS MERCHANTABILITY AND ITS NONINFRINGEMENT OF ANY THIRD PARTY'S INTELLECTUAL PROPERTY RIGHTS. TIA EXPRESSLY DISCLAIMS ANY AND ALL RESPONSIBILITIES FOR THE ACCURACY OF THE CONTENTS AND MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING THE CONTENT'S COMPLIANCE WITH ANY APPLICABLE STATUTE, RULE OR REGULATION, OR THE SAFETY OR HEALTH EFFECTS OF THE CONTENTS OR ANY PRODUCT OR SERVICE REFERRED TO IN THE DOCUMENT OR PRODUCED OR RENDERED TO COMPLY WITH THE CONTENTS.

TIA SHALL NOT BE LIABLE FOR ANY AND ALL DAMAGES, DIRECT OR INDIRECT, ARISING FROM OR RELATING TO ANY USE OF THE CONTENTS CONTAINED HEREIN, INCLUDING WITHOUT LIMITATION ANY AND ALL INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING DAMAGES FOR LOSS OF BUSINESS, LOSS OF PROFITS, LITIGATION, OR THE LIKE), WHETHER BASED UPON BREACH OF CONTRACT, BREACH OF WARRANTY, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY OR OTHERWISE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE FOREGOING NEGATION OF DAMAGES IS A FUNDAMENTAL ELEMENT OF THE USE OF THE CONTENTS HEREOF, AND THESE CONTENTS WOULD NOT BE PUBLISHED BY TIA WITHOUT SUCH LIMITATIONS.

ADMINISTRATION STANDARD FOR TELECOMMUNICATIONS INFRASTRUCTURE

Table of Contents

Foreword	vii
Introduction.....	ix
General	ix
Purpose.....	ix
Specification of criteria.....	x
Metric equivalents of US customary units	x
Life of this Standard.....	x
Use of legacy identifier formats.....	x
Elements of an Administration System	x
1 SCOPE.....	1
2 NORMATIVE REFERENCES.....	1
3 DEFINITION OF TERMS, ACRONYMS AND ABBREVIATIONS, AND UNITS OF MEASURE.....	2
3.1 General.....	2
3.2 Definition of terms.....	2
3.3 Acronyms and abbreviations.....	8
3.4 Units of measure.....	8
4 CLASSES OF ADMINISTRATION.....	9
4.1 General.....	9
4.2 Determination of class	9
4.2.1 Class 1.....	9
4.2.2 Class 2.....	9
4.2.3 Class 3.....	10
4.2.4 Class 4.....	10
4.3 Classes and associated identifiers	10
4.4 Labeling formats	10
4.5 ANSI/TIA-606-A and ISO/IEC TR 14763-2-1 compatible formats.....	11
4.6 Alternative label formats.....	16
5 CLASS 1 ADMINISTRATION.....	17
5.1 Infrastructure identifiers	17
5.1.1 Telecommunications space identifier	17
5.1.2 Cabinet and rack identifiers.....	18
5.1.3 Patch panel and termination block identifier	24
5.1.4 Patch panel port and termination block position identifiers.....	33
5.1.5 Cables between patch panels or termination blocks.....	34
5.1.6 Administration of pairs, strands, and groupings within a cable	37
5.1.7 Cabling Subsystem 1 link identifier	38
5.1.8 Equipment outlet and telecommunications outlet identifiers	40
5.1.9 Identifiers for consolidation points on Cabling Subsystem 1 links	41
5.1.10 Identifiers for zone distribution area ports	41
5.1.11 Identifiers for splices on Cabling Subsystem 1 links	42
5.1.12 TMGB identifier.....	43
5.1.13 TGB identifier.....	43

5.1.14	RGB identifier	44
5.1.15	Mesh-BN identifier	44
5.1.16	BCT identifier	45
5.1.17	TBB identifier	45
5.1.18	GE identifier	46
5.1.19	Identifier for bonding conductor attached to TMGB	46
5.1.20	Identifier for bonding conductor attached to TGB	47
5.1.21	Identifier for bonding conductor attached to mesh-BN	48
5.1.22	Identifier for bonding conductor attached to RGB	48
5.2	Required records	49
6	CLASS 2 ADMINISTRATION.....	49
6.1	Infrastructure identifiers	49
6.1.1	Building Cabling Subsystem 2 and 3 cable identifiers	50
6.1.2	Pairs, strands, and grouping identifiers for Building Cabling Subsystem 2 and 3	51
6.1.3	Building Cabling Subsystem 2 and 3 splice identifier	51
6.1.4	Firestopping location identifier	52
6.2	Required records	53
6.2.1	TS records	53
6.2.2	Building Cabling Subsystem 2 and 3 cable records	53
6.2.3	TMGB records	54
6.2.4	TGB records	54
6.2.5	Firestopping records	54
7	CLASS 3 ADMINISTRATION.....	55
7.1	Infrastructure identifiers	55
7.1.1	Campus or site identifier	55
7.1.2	Building identifier	56
7.1.3	Inter-building cable identifier	56
7.1.4	Inter-building cable pair / port identifier	57
7.1.5	Inter-building cable splice identifier	57
7.2	Required records	58
7.2.1	Building records	58
7.2.2	Campus cable records	58
8	CLASS 4 ADMINISTRATION.....	59
8.1	Infrastructure identifiers	59
8.2	Required records	59
9	OPTIONAL IDENTIFIERS FOR INFRASTRUCTURE ELEMENTS.....	59
9.1	General	59
9.2	Absolute and partial identifiers	60
9.3	Outdoor telecommunications space identifiers	60
9.3.1	TIA-606-A compatible format	60
9.3.2	ISO/IEC compatible format	60
9.3.3	Implementation and labeling	60
9.4	Pathway identifiers	61
9.4.1	Intra-space pathway identifiers	61
9.4.2	Intra-building pathway identifiers	61
9.4.3	Building entrance pathway identifiers	62
9.4.4	Outside plant pathway identifiers	62
9.4.5	Campus entrance pathway identifiers	63
9.5	Examples of elements and identifiers	63

10	COLOR-CODING IDENTIFICATION.....	67
10.1	General.....	67
10.2	Color-coding of termination fields.....	67
10.2.1	General.....	67
10.2.2	Color-coding of specific termination fields.....	67
10.3	Color-coding in Cabling Subsystem 1 cabling	69
10.3.1	Cabling Subsystem 1 cabling components	69
10.3.2	Fiber cabling components	69
11	PERMANENT LABELS	69
11.1	Visibility and durability.....	69
11.2	Machine generation	69
12	ADMINISTRATION SYSTEMS USING RECORDS, LINKAGES & REPORTS	69
12.1	General.....	69
12.2	Records	70
12.3	Linkages	70
12.4	Reports	70
12.5	Specialized software	70
13	AUTOMATED INFRASTRUCTURE MANAGEMENT SYSTEMS	70
13.1	General.....	70
13.2	Core functions of automated infrastructure management.....	70
13.3	Auxiliary functions	71
13.4	Usage recommendations	71
Annex A (informative) Identification of patch cords, equipment cords, and direct equipment-to-equipment cables		72
A.1	Patch cord identifiers.....	72
A.1.1	TIA-606-A compatible format.....	72
A.1.2	ISO/IEC compatible format.....	72
A.1.3	Implementation and labeling.....	72
A.2	Equipment cord identifiers	72
A.2.1	TIA-606-A compatible format.....	72
A.2.2	ISO/IEC compatible format.....	73
A.2.3	Implementation and labeling.....	73
A.3	Direct equipment to equipment cable identifiers	73
A.3.1	TIA-606-A compatible format.....	73
A.3.2	ISO/IEC compatible format.....	73
A.3.3	Implementation and labeling.....	73
A.4	Labeling of patch cords, equipment cords, and direct equipment-to-equipment cables ...	73
A.5	Alternative Scheme for labeling of patch cords, equipment cords, and direct equipment-to-equipment cables	74
Annex B (informative) Telecommunications grounding system identification Example...75		
Annex C (informative) Graphical, symbology, and drawing elements of administration ..76		
C.1	General	76
C.2	T-Series drawings	76
C.3	Layers	78
C.4	Line styles, pathway conditions, and drawing notes	80

C.5 Symbols	82
C.6 Sample drawings	87
Annex D (informative) Bibliography and References	91

List of Tables

Table 1 - Identifiers grouped by class – ANSI/TIA-606-A compatible	11
Table 2 - Identifiers grouped by class – ISO/IEC TR 14763-2-1 compatible	13
Table 3 - Optional identifiers associated with pathway, device, and space elements.....	66
Table 4 - Example of termination field color-coding	67
Table 5 - Layers, element descriptions, colors, and line types.....	78

List of Figures

Figure 1 – Illustrative relationship between the ANSI/TIA-568-C Series and other relevant TIA standards	viii
Figure 2 – A representative model of typical telecommunications infrastructure elements for administration	xi
Figure 3 – Elements of generic cabling topology	3
Figure 4 – Example of room grid coordinates	19
Figure 5 – Example of cabinet identifiers using grid	20
Figure 6 – Example of non-grid coordinates	22
Figure 7 – Example of telecommunications room cabinet and wall segment identifiers	23
Figure 8 – Sample rack and cabinet labeling	24
Figure 9 – Example of vertically aligned patch panel identification	26
Figure 10 – Labeling example for UTP patch panel with label fields	28
Figure 11 – Labeling example for UTP patch panel without patch panel ID label fields	28
Figure 12 – Labeling example of a fiber patch panel ignoring subpanels.....	29
Figure 13 – Labeling example of a fiber patch panel with subpanels	29
Figure 14 – Labeling example of a fiber patch panel with optional MDA and HDA identifiers	30
Figure 15 – Example of non-vertically aligned patch panel identification	32
Figure 16 – Optional symbol to indicate powered port or outlet	34
Figure 17 – Sample MPO/LC layout.....	36
Figure 18 – Sample MPO/LC labeling scheme.....	36

Figure 19 – Sample MPO/LC labeling at LC end.....	37
Figure 20 - Example of color-coding of termination fields	68
Figure 21 – Equipment cord & patch cord labeling scheme.....	74
Figure 22 – telecommunications grounding system labeling example	75
Figure 23 – T0 and T1 line styles	80
Figure 24 - Pathway conditions and drawing notes	81
Figure 25 – T0 symbols.....	82
Figure 26 – T0 & T1 symbols	83
Figure 27 – Additional T0 & T1 symbols.....	84
Figure 28 - T2 symbols	85
Figure 29 - T3 symbols	86
Figure 30 - Example of T0 drawing level	87
Figure 31 - Example of T1 drawing level	88
Figure 32 - Example of T2 drawing level	89
Figure 33 - Example of T3 drawing level	90
