SCC FOREWORD

National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at www.scc.ca.

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

UL Standard for Safety for Electrical Systems for Personal E-Mobility Devices, UL 2272

First Edition, Dated November 21, 2016

Summary of Topics

This revision ANSI/CAN/UL 2272 has been issued to include requirements for Connections to Cells.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated April 27, 2018.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard “as is” without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL’s liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL’s Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney’s fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser’s computer system.

UL 2272

Standard for Electrical Systems for Personal E-Mobility Devices

First Edition

November 21, 2016

This ANSI/CAN/UL Safety Standard consists of the First Edition including revisions through February 25, 2019.

The most recent designation of ANSI/UL 2272 as an American National Standard (ANSI) occurred on February 25, 2019. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, Preface or SCC Foreword.

This standard has been designated as a National Standard of Canada (NSC) on February 25, 2019.

CONTENTS

Preface (UL)	5
--------------------	---

INTRODUCTION

1 Scope	7
2 Components	7
3 Units of Measurement	7
4 Undated References	7
5 Normative References	7
6 Glossary	11

CONSTRUCTION

7 Non-Metallic Materials	14
8 Metallic Parts Resistance to Corrosion	15
9 Enclosures	16
9.1 General	16
9.2 Battery compartments	16
10 Wiring and Terminals	16A
11 Chargers	18
12 Fuses	18
13 Lighting	19
14 Electrical Spacings and Separation of Circuits	19
15 Insulation Levels and Protective Grounding	20
16 Protective Circuits and Safety Analysis	21
17 Cells	23
18 Motors	24
19 Manufacturing and Production Line Testing	24

PERFORMANCE

20 General	25
21 Tolerances	27
22 Post Test Cycle	27
23 Results Criteria	28

ELECTRICAL TESTS

24 Overcharge Test	28
25 Short Circuit Test	29
26 Overdischarge Test	30
27 Temperature Test	31
28 Imbalanced Charging Test	34
29 Dielectric Voltage Withstand Test	35
30 Isolation Resistance Test	37
31 Leakage Current Test	37
32 Grounding Continuity Test	38

MECHANICAL TESTS

33	Vibration Test	39
34	Shock Test	40
35	Crush Test	41
36	Drop Test	42
37	Mold Stress Relief Test	43
38	Handle Loading Test	43
39	Motor Overload Test	44
40	Motor Locked Rotor	45
41	Strain Relief Tests (Cord Anchorages)	46
41.1	General	46
41.2	Strain relief pull test	46
41.3	Push-back test	46

ENVIRONMENTAL TESTS

42	Water Exposure Tests	47
42.1	IPX4 Code rating	47
42.2	Partial immersion	48
43	Thermal Cycling Test	48
44	Label Permanence Test	49
