Northbrook, IL 60062-2096

UL Standard for Safety for Amplifiers for Fire Protective Signaling Systems, UL 1711

Fourth Edition, Dated December 28, 2006

Summary of Topics

This new edition of UL 1711 is being issued through UL's electronic publishing system to ensure format uniformity between the PDF and HTML versions of the document. While numbering and figure placement, where appropriate, may have been updated, no substantive changes have been incorporated in the document.

The UL Foreword is no longer located within the UL Standard. For information concerning the use and application of the requirements contained in this Standard, the current version of the UL Foreword is located on ULStandardsInfoNet at: <http://ulstandardsinfo.net.ul.com/ulforeword.html>

The master for this Standard at UL's Northbrook Office is the official document insofar as it relates to a UL service and the compliance of a product with respect to the requirements for that product and service, or if there are questions regarding the accuracy of this Standard.

UL's Standards for Safety are copyrighted by UL. Neither a printed copy of a Standard, nor the distribution diskette for a Standard-on-Diskette and the file for the Standard on the distribution diskette should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

Revisions of UL Standards for Safety are issued from time to time. A UL Standard for Safety is current only if it incorporates the most recently adopted revisions.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

UL will attempt to answer support requests concerning electronic versions of its Standards. However, this support service is offered on a reasonable efforts basis only, and UL may not be able to resolve every support request. UL supports the electronic versions of its Standards only if they are used under the conditions and operating systems for which it is intended. UL's support policies may change from time-to-time without notification.

UL reserves the right to change the format, presentation, file types and formats, delivery methods and formats, and the like of both its printed and electronic Standards without prior notice.

Purchasers of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgement (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

If a single-user version electronic Standard was purchased, one copy of this Standard may be stored on the hard disk of a single personal computer, or on a single LAN file-server or the permanent storage device of a multiple-user computer in such a manner that this Standard may only be accessed by one user at a time and for which there is no possibility of multiple concurrent access.

If a multiple-user version electronic Standard was purchased, one copy of the Standard may be stored on a single LAN file-server, or on the permanent storage device of a multiple-user computer, or on an Intranet server. The number of concurrent users shall not exceed the number of users authorized.

Electronic Standards are intended for on-line use, such as for viewing the requirements of a Standard, conducting a word search, and the like. Only one copy of the Standard may be printed from each single-user version of an electronic Standard. Only one copy of the Standard may be printed for each authorized user of a multiple-user version of an electronic Standard. Because of differences in the computer/software/printer setup used by UL and those of electronic Standards purchasers, the printed copy obtained by a purchaser may not look exactly like the on-line screen view or the printed Standard.

An employee of an organization purchasing a UL Standard can make a copy of the page or pages being viewed for their own fair and/or practical internal use.

The requirements in this Standard are now in effect, except for those paragraphs, sections, tables, figures, and/or other elements of the Standard having future effective dates as indicated in the note following the affected item. The prior text for requirements that have been revised and that have a future effective date are located after the Standard, and are preceded by a "SUPERSEDED REQUIREMENTS" notice.

New product submittals made prior to a specified future effective date will be judged under all of the requirements in this Standard including those requirements with a specified future effective date, unless the applicant specifically requests that the product be judged under the current requirements. However, if the applicant elects this option, it should be noted that compliance with all the requirements in this Standard will be required as a condition of continued Listing, Recognition and Follow-Up Services after the effective date, and understanding of this should be signified in writing.

This Standard consists of pages dated as shown in the following checklist:

Page	Date
1-64	December 28, 2006
A1-A2.....	December 28, 2006

DECEMBER 28, 2006

1

UL 1711

Standard for Amplifiers for Fire Protective Signaling Systems

First Edition – January, 1987
Second Edition – August, 1994
Third Edition – February, 1999

Fourth Edition

December 28, 2006

An effective date included as a note immediately following certain requirements is one established by Underwriters Laboratories Inc.

Revisions of this Standard will be made by issuing revised or additional pages bearing their date of issue. A UL Standard is current only if it incorporates the most recently adopted revisions, all of which are itemized on the transmittal notice that accompanies the latest set of revised requirements. Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

CONTENTS

INTRODUCTION

1 Scope	6
2 General	7
2.1 Components	7
2.2 Units of measurement	7
2.3 Undated references	7
3 Glossary	8

INSTRUCTIONS AND DRAWINGS

4 General	8
-----------------	---

CONSTRUCTION

ASSEMBLY

5 General	9
6 Protection of Service Personnel	9
7 Electrical Supervision	10
8 Enclosures	10
8.1 General	10
8.2 Openings	11
8.3 Cast metal	14
8.4 Sheet metal	15
8.5 Nonmetallic	17
8.6 Doors and covers	18
8.7 Screens and expanded metal	19
9 Electric Shock	19
9.1 Shock current	19
9.2 Antenna terminals	19
9.3 Circuit element replacement	20
10 Protection Against Corrosion	20

FIELD-WIRING CONNECTIONS

11 General	21
12 Field-Wiring Compartment	21
13 Power-Limited Circuits	21
14 Field-Wiring Terminals	22
14.1 General	22
14.2 General application	22
15 Leads	24
16 Cords and Plugs	24
17 Grounding	25

INTERNAL WIRING AND ASSEMBLY

18 General	26
19 Separation of Circuits	27
20 Bonding for Grounding	27

COMPONENTS – ELECTRICAL

21 General	29
21.1 Mounting of components	29
21.2 Insulating materials	29
21.3 Current-carrying parts	30
21.4 Bushings	30
22 Overcurrent Protection	31
23 Semiconductors	31
24 Switches	31
25 Transformers and Relays	32
26 Printed-Wiring Boards	32
27 Spacings	32

OPERATING COMPONENTS

28 General	34
------------------	----

PERFORMANCE

29 Test Samples	34
30 Test Voltages	35
31 Waveform Analysis Test	35
32 Power Input/Output Characteristics Tests	36
33 Variable Voltage Operation Test	36
34 Electrical Supervision Tests	36
35 Harmonic Distortion Test	37
35.1 Crossover	37
35.2 Total harmonic	37
36 Variable Ambient Temperature Test	37
37 Humidity Test	38
38 Electric Shock Current Test	38
39 Leakage Current Test	42
40 Temperature Test	45
41 Overload Test	48
42 Endurance Test	48
43 Burnout Test	48
44 Component Failure Test	49
45 Abnormal Operation Test	49
46 Transient Tests	50
46.1 General	50
46.2 Supply line transients	50
47 Mechanical Strength Tests	52
47.1 Jarring test – complete product	52
47.2 Impact test – glass parts	53
48 Strain Relief Tests	54
48.1 Flexible cords	54
