

UL 2237

STANDARD FOR SAFETY

Multi-Point Interconnection Power
Cable Assemblies for Industrial
Machinery

UL Standard for Safety for Multi-Point Interconnection Power Cable Assemblies for Industrial Machinery, UL 2237

First Edition, Dated April 16, 2019

Summary of Topics

This revision of ANSI/UL 2237 dated January 8, 2021 includes new requirements for Markings and Instructions; [48.1A](#)

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The new requirements are substantially in accordance with Proposal(s) on this subject dated October 2, 2020.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

UL 2237

**Standard for Multi-Point Interconnection Power Cable Assemblies for
Industrial Machinery**

First Edition

April 16, 2019

This ANSI/UL Standard for Safety consists of the First Edition including revisions through January 8, 2021.

The most recent designation of ANSI/UL 2237 as an American National Standard (ANSI) occurred on January 8, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

INTRODUCTION

1	Scope	5
2	Glossary	5
3	Components	7
4	Units of Measurement	7
5	Undated References	7

CONSTRUCTION

6	Accessibility of Uninsulated Live Parts	8
7	Insulating Materials	10
7.1	General	10
7.2	Insulating materials for devices rated 600 V or less	10
7.3	Insulating materials for devices rated 601 – 1,000 V	14
8	Live Parts	14
9	Grounding and Dead-Metal Parts	14
10	Terminals	15
11	Strain Relief and Cord Entries	16
12	Spacings	16
12.1	Spacing for devices rated 600 V or less	16
12.2	Spacings for devices rated 601 – 1,000 V	16
12.3	Alternate spacings – clearance and creepage distances	17
13	Assembly	17
13.1	General	17
13.2	Polarization	18
13.3	Mating and interchangeability	18
13.4	Terminal identification	18
14	Enclosure	20
15	Flexible Cord, Cable or Wiring	20
16	Mounting	20
17	Environmental Rating	21
18	Outdoor Use	21

PERFORMANCE

19	General	21
20	Mold Stress-Relief Distortion Test	22
21	Moisture Absorption Test	23
22	Dielectric Voltage-Withstand Test	23
23	Insulation Resistance Test	24
24	Conductor Secureness Test	25
25	Strain-Relief Test	26
25.1	Cord-to-fitting test	26
25.2	Feeder-tap cable systems test	26
26	Overload Test	27
27	Temperature Test	28
28	Resistance to Arcing Test	29
29	Current-Cycling and Vibration Test (For Pin Type or Insulation Displacement Type Terminals)	29
29.1	General	29
29.2	Current-cycling before vibration test	29
29.3	Vibration test	30

	29.4 Current-cycling after vibration test	30
	29.5 Calculations	30
30	Jacket Retention Test	30
31	Polarization Test	31
32	Adhesion Test	31
33	Environmental Enclosure Tests	31
34	Grounding (Bonding) Path Current Test.....	31
35	Cable Pullout Test (For Pin Type or Insulation Displacement Type Terminals)	31
36	Creep Test (For Pin Type or Insulation Displacement Type Terminals)	32
37	Short-Circuit Withstand Test.....	32
	37.1 General.....	32
	37.2 Protective devices	34
	37.3 Calibration of test circuits	37
38	Humidity Conditioning Test.....	47
39	Crush Test	47
40	No-Load Endurance Test	48
41	Impact Test (Male and Female Fittings).....	48
42	Abnormal Overload Test	49
43	Resistance to Corrosion Test.....	50
44	Accelerating Aging Tests.....	51
	44.1 General.....	51
	44.2 Rubber, EPDM, and TEE compounds.....	51
	44.3 PVC compounds and copolymers	51
45	Insulating Materials	51
	45.1 Glow wire test.....	51
	45.2 Comparative tracking index test.....	52
	45.3 High-current arc resistance to ignition test	52
