

UL 1261

STANDARD FOR SAFETY

Electric Water Heaters for Pools and Tubs

UL Standard for Safety for Electric Water Heaters for Pools and Tubs, UL 1261

Sixth Edition, Dated September 2, 2016

Summary of Topics

This revision of ANSI/UL 1261 is being issued to clarify button or coin cell batteries of lithium technologies requirements.

The revised requirements are substantially in accordance with Proposal(s) on this subject dated July 14, 2017.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

UL 1261

Standard for Electric Water Heaters for Pools and Tubs

First Edition – May, 1977

Second Edition – March, 1981

Third Edition – November, 1992

Fourth Edition – January, 1996

Fifth Edition – March, 2001

Sixth Edition

September 2, 2016

This ANSI/UL Standard for Safety consists of the Sixth Edition including revisions through September 1, 2017.

The most recent designation of ANSI/UL 1261 as an American National Standard (ANSI) occurred on September 1, 2017. ANSI approval for a standard does not include the Cover Page, Transmittal Pages and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

CONTENTS

INTRODUCTION

1 Scope	7
2 Glossary	7
3 Safety Critical Functions	8

CONSTRUCTION

4 Component Specifications	9
4.1 General	9
4.2 Quick-connect wire connectors	10
4.3 Terminal blocks	10
4.4 Wire connectors	10
4.5 Boxes and raceways	11
4.6 Overcurrent protection	11
4.7 Switches	11
4.8 Relays and contactors	13
4.9 Transformers	13
4.10 Printed wiring boards	13
4.11 Temperature sensing thermistor devices	14
4.12 Button or coin cell batteries of lithium technologies	14
5 Frame and Enclosure	14
5.1 General	14
5.2 Protection of combustible materials outside the enclosure	15
5.3 Ventilating openings	15
5.4 Thickness of enclosure materials	16
5.5 Openings	17
5.6 Accessibility of uninsulated live parts	19
5.7 Button or coin cell batteries of lithium technologies	23
6 Metal in Contact With Water	23
7 Field-Wiring Connections	24
7.1 General	24
7.2 Leads and terminals	25
8 Field Wiring Compartments	27
9 Leakage Current Collectors	28
10 Equipment Grounding	29
11 Bonding For Grounding	29
12 Live or Current-Carrying Parts	30
12.1 General	30
12.2 Current-carrying parts	30
13 Enclosure of Live Parts and Wiring	30
14 Internal Wiring	31
14.1 General	31
14.2 Wiring methods	32
14.3 Splices and connections	32
15 Heating Elements	33
16 Electrical Insulation	33
17 Thermal Insulation	34
18 Overcurrent Protection	34
18.1 General	34

18.2 Receptacle, transformer, lampholder protection	34
19 Temperature Regulating Controls	35
19.1 General	35
19.2 Construction	35
20 Temperature-Limiting Controls	36
21 Electrical Spacings	38
22 Clearance and Creepage Distances	40
23 Protection Against Risk of Physical Injury	41
23.1 General	41
23.2 Maximum surface temperatures	41
23.3 Stability	41
24 Pressure Vessels and Parts Subject to Pressure	42
25 Units Intended for Outdoor Use	42
25.1 General	42
25.2 Enclosure	42
25.3 Corrosion resistance	43

PERFORMANCE

26 Power Input	45
27 Normal Temperature	45
28 Water Temperature	48
29 Dielectric Voltage-Withstand	48
30 Abnormal Operation	49
31 Insulation Resistance as a Result of Moisture	49
32 Resistance to Rain	49
33 Hydrostatic Pressure	53
34 Metal Coating Thickness	53
35 Endurance of Temperature-Regulating and -Limiting Controls	55
36 Leakage Current in Water	55
37 Stability Test	58

MANUFACTURING AND PRODUCTION-LINE TEST

38 Production-Line Dielectric Voltage-Withstand	58
38.1 General	58
38.2 Test equipment	59

RATINGS

39 Details	60
------------------	----

MARKINGS

40 Details	61
40.1 Identification and electrical ratings	61
40.2 Temperatures for field-wiring conductors	62
40.3 Marking of field terminals	63
41 Permanence	63
41.1 General	63
41.2 Oven aging	64
41.3 Immersion	64
41.4 Standard atmosphere	64

41.5 Evaluation of adhesive labels	64
