

UL 62368-1

STANDARD FOR SAFETY

Audio/Video, Information and Communication Technology Equipment – Part 1: Safety Requirements

UL Standard for Safety for Audio/Video, Information and Communication Technology Equipment – Part 1: Safety Requirements, UL 62368-1

Third Edition, Dated December 13, 2019

Summary of Topics

This revision of ANSI/UL 62368-1 dated October 22, 2021 includes updates to correlate with NFPA 70:2020 and NFPA 75:2020; Annex <u>DVA</u>, Annex <u>DVF</u>, Annex <u>DVH</u>, removes the reference of UL 60320-1 from Annex <u>DVE</u> and Annex <u>DVF</u> and miscellaneous editorial updates; <u>R.3</u>, <u>T.7</u>, and <u>Figure V.5</u>.

UL 62368-1 is an adoption of IEC 62368-1, Audio/video, information and communication technology equipment – Part 1: Safety requirements (Third Edition, issued October 2018). Please note that the national difference document incorporates all of the U.S. national differences for UL 62368-1.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated May 28, 2021 and July 30, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

Underwriters Laboratories Inc. UL 62368-1 Third Edition

Audio/Video, Information and Communication Technology Equipment – Part 1: Safety Requirements

December 13, 2019

(Title Page Reprinted: October 22, 2021)

This national standard is based on publication IEC 62368-1, Third Edition (2018).

Commitment for Amendments

This standard is issued jointly by the Canadian Standards Association (operating as "CSA Group") and Underwriters Laboratories Inc. (UL). Comments or proposals for revisions on any part of the standard may be submitted to CSA Group or UL at anytime. Revisions to this standard will be made only after processing according to the standards development procedures of CSA Group and UL. CSA Group and UL will issue revisions to this standard by means of a new edition or revised or additional pages bearing their date of issue.

All rights reserved. No part of this publication may be reproduced in any form whatsoever without the prior permission of the publisher.

This Standard is subject to review within five years from the date of publication, and suggestions for its improvement will be referred to the appropriate committee. The technical content of IEC and ISO publications is kept under constant review by IEC and ISO. To submit a proposal for change, please send the following information to inquiries@csagroup.org and include "Proposal for change" in the subject line: Standard designation (number); relevant clause, table, and/or figure number; wording of the proposed change; and rationale for the change.

To purchase CSA Group Standards and related publications, visit CSA Group's Online Store at www.csagroup.org/store/ or call toll-free 1-800-463-6727 or 416-747-4044.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

This ANSI/UL Standard for Safety consists of the Third Edition including revisions through October 22, 2021.

The most recent designation of ANSI/UL 62368-1 as an American National Standard (ANSI) occurred on October 22, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface. The National Difference Page and IEC Foreword are also excluded from the ANSI approval of IEC-based standards.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at https://csds.ul.com.

To purchase UL Standards, visit UL's Standards Sales Site at http://www.shopulstandards.com/HowToOrder.aspx or call toll-free 1-888-853-3503.

Preface	e	13
NATIO	NAL DIFFERENCES	15
FOREV	WORD	17
INTRO	DUCTION	21
4	Contra	0.7
1	Scope	
	1DV.1 Modify this clause by adding the following text:	
	1DV.3 Modify Clause 1 by replacing Note 3 with the following:	
	1DV.4 Modify Clause 1 by adding the following paragraph and Note:	
	1DV.5 Add Clause 1DV.5.1 to Clause 1	
2	Normative references	
_	2DV Modify Clause 2 by adding the following references:	
3	Terms, definitions and abbreviated terms	
	3.1 Energy source abbreviations	
	3.2 Other abbreviations	
	3.3 Terms and definitions	54
	3.3DV Modify 3.3 by adding the term "telecommunication network" to the list	54
4	General requirements	72
	4.1 General	
	4.2 Energy source classifications	
	4.3 Protection against energy sources	
	4.4 Safeguards	
	4.5 Explosion	
	4.6 Fixing of conductors	
	4.7 Equipment for direct insertion into mains socket-outlets	
	4.8 Equipment containing coin / button cell batteries	
	4.9 Likelihood of fire or shock due to entry of conductive objects	
5	Electrically-caused injury	
5	5.1 General	
	5.2 Classification and limits of electrical energy sources	
	5.3 Protection against electrical energy sources	
	5.4 Insulation materials and requirements	
	5.5 Components as safeguards	
	5.6 Protective conductor	
	5.7 Prospective touch voltage, touch current and protective conductor current	
	5.8 Backfeed safeguard in battery backed up supplies	
6	Electrically-caused fire	
	6.1 General	
	6.2 Classification of power sources (PS) and potential ignition sources (PIS)	
	6.3 Safeguards against fire under normal operating conditions and abnormal operating)
	conditions	
	6.4 Safeguards against fire under single fault conditions	
	6.5 Internal and external wiring	
	6.6 Safeguards against fire due to the connection of additional equipment	
7	Injury caused by hazardous substances	
1	7.1 General	
	7.2 Reduction of exposure to hazardous substances	

	7.6 Batteries and their protection circuits	197
8	Mechanically-caused injury	197
	8.1 General	
	8.2 Mechanical energy source classifications	
	8.3 Safeguards against mechanical energy sources	
	8.4 Safeguards against parts with sharp edges and corners	
	8.5 Safeguards against parts with sharp eages and corners	
	8.6 Stability of equipment	
	8.7 Equipment mounted to a wall, ceiling or other structure	
	8.8 Handle strength	
	8.9 Wheels or casters attachment requirements	
	8.10 Carts, stands, and similar carriers	
	8.11 Mounting means for slide-rail mounted equipment (SRME)	
	8.12 Telescoping or rod antennas	220
9	Thermal burn injury	220
	9.1 General	220
	9.2 Thermal energy source classifications	220
	9.3 Touch temperature limits	
	9.4 Safeguards against thermal energy sources	
	9.5 Requirements for safeguards	
	9.6 Requirements for wireless power transmitters	
10	Radiation	
10		
	10.1 General	
	10.2 Radiation energy source classifications	
	10.3 Safeguards against laser radiation	
	10.4 Safeguards against optical radiation from lamps and lamp systems (including LEI)
	types)	
	10.5 Safeguards against X-radiation	
	10.6 Safeguards against acoustic energy sources	236
	A (informative) Examples of equipment within the scope of this document B (normative) Normal operating condition tests, abnormal operating condition te single fault condition tests	ests and
