Summary of Topics

This revision to ANSI/UL 60745-2-12 dated November 6, 2020 is being issued to make an editorial update to the Title page and Preface to reflect that the published Standard includes IEC Amendment 1 (2008). No changes in requirements are involved.

As noted in the Commitment for Amendments statement located on the back side of the title page, UL and CSA are committed to updating this harmonized standard jointly. However, the revision pages dated November 6, 2020 will not be issued by CSA since the revisions address UL only administrative changes.
