# UL 1776

## **STANDARD FOR SAFETY**

## High-Pressure Cleaning Machines

UL Standard for Safety for High-Pressure Cleaning Machines, UL 1776

Third Edition, Dated June 7, 2002

### **SUMMARY OF TOPICS**

***This revision to ANSI/UL 1776 includes a change in the following requirements:***

#### ***Rechargeable Battery-Powered High Pressure Cleaning Machine***

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated November 23, 2018.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

**UL 1776**

**Standard for High-Pressure Cleaning Machines**

First Edition – October, 1992  
Second Edition – December, 1995

**Third Edition**

**June 7, 2002**

This ANSI/UL Standard for Safety consists of the Third Edition including revisions through February 12, 2019.

The most recent designation of ANSI/UL 1776 as an American National Standard (ANSI) occurred on February 12, 2019. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

The Department of Defense (DoD) has adopted UL 1776 on August 23, 2000. The publication of revised pages or a new edition of this Standard will not invalidate the DoD adoption.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

## CONTENTS

### INTRODUCTION

1 Scope .....	11
2 Glossary .....	11
2.1 General .....	11
2.2 All products .....	12
2.3 Fuel-fired products .....	15
3 Components .....	19
4 Units of Measurement .....	20
4A Undated References .....	20
5 Accessories .....	20
6 Instructions .....	20

### CONSTRUCTION – ALL PRODUCTS

7 Assembly .....	20
8 Materials .....	21
8.1 General .....	21
8.2 Fluid-confining parts .....	21
8.3 Nonmetallic materials .....	22
9 Protection Against Corrosion .....	22
10 Thermal Insulating Material .....	24A

### ELECTRICAL SYSTEMS AND DEVICES

11 Frame and Enclosure .....	25
12 Adhesives Used to Secure Parts .....	31
13 Handles and Gripping Areas .....	31
14 Mechanical Assembly .....	32
15 Accessibility of Uninsulated Live Parts and Film-Coated Wire .....	32A
16 Supply Connections .....	38
16.1 Cord-connected products .....	38
16.2 Permanently connected products .....	39
17 Current-Carrying Parts .....	42
18 Insulating Material .....	42
19 Internal Wiring .....	42
19.1 Mechanical protection .....	42
19.2 Wiring in products exposed to the effects of weathering .....	44
19.3 Splices and connections .....	44
19.4 Separation of circuits .....	45
19.5 Separation of wiring and fuel lines .....	45
20 Capacitors .....	45
21 Grounding .....	46
22 Heating Elements .....	48
23 Water Heaters .....	48
24 Lampholders .....	48
25 Motors .....	49
25.1 General .....	49
25.2 Overload protection .....	49
26 Overload- or Thermal-Protective Devices .....	51

27	Receptacles .....	52
28	Switches and Controls .....	53
29	Automatic Temperature Controls .....	53
30	Spacings .....	54

## **MECHANICAL SYSTEMS AND DEVICES – ENGINE DRIVEN PRODUCTS**

31	Fuel Systems – Gasoline or Diesel .....	57
31.1	General .....	57
31.2	Fuel tanks .....	57
31.3	Fuel pump .....	58
31.4	Fuel lines and fittings .....	58
31.5	Carburetors .....	59
32	Fuel Systems – LP-Gas .....	59
32.1	General .....	59
32.2	Containers .....	60
32.3	Gauges .....	61
32.4	Fuel lines and fittings .....	62
32.5	Vaporizers .....	63
32.6	Safety-control and relief devices .....	63
32.7	Nonmetallic parts .....	64
32.8	Exhaust System .....	64
32.9	Battery compartment .....	65

## **MECHANICAL SYSTEMS AND DEVICES – FUEL FIRED PRODUCTS**

33	General .....	65
33.1	Ignition assembly .....	65
33.2	Gas-fired burners .....	66
33.3	Oil-fired burners .....	66
34	Burner Assemblies .....	66
34.1	General .....	66
34.2	Gas-fired assemblies .....	68
34.3	Oil-fired assemblies .....	69
35	Combination Gas-Oil Burner Assemblies .....	71
36	Electric High-Tension Ignition System .....	71
36.1	Assembly .....	71
36.2	Electrode and bus bars .....	71
36.3	Insulators .....	72
36.4	Leads .....	73
36.5	Transformers .....	73
37	Electric Hot-Wire Ignition System .....	73
38	Gas Pilots .....	74
38.1	General .....	74
38.2	Gas-fired burners .....	74
38.3	Oil-fired burners .....	75
39	Valves .....	75
39.1	General .....	75
39.2	Automatic safety-shutoff valves – gas-fired burners .....	75
39.3	Automatic safety – shutoff valves– oil-fired burners .....	76
39.4	Manual valves – gas-fired burners .....	76
39.5	Manual valves – oil-fired burners .....	76
39.6	Pressure-relief valves .....	77

40	Pressure Regulators .....	77
41	Heating Surfaces and Combustion Chambers .....	77
42	Baffles .....	79
43	Draft Control .....	79
44	Venting .....	80
45	Fuel-Supply System .....	80
45.1	Oil tanks .....	80
45.2	Fuel lines and piping .....	82
45.3	Gas-fired products .....	84
45.4	Oil fired products .....	84
46	Controls .....	84
46.1	General .....	84
46.2	Combustion-air controls .....	85
46.3	Operating controls .....	87
46.4	Limit controls .....	87
46.5	Primary-safety controls – gas-fired burners .....	87
46.6	Primary-safety controls – oil-fired burners .....	90

## PROTECTION AGAINST INJURY TO PERSONS

47	General .....	91
48	Sharp Edges .....	92
49	Enclosures and Guards .....	92
50	Materials .....	93
51	Rotating or Moving Members .....	93
52	Back-Flow Prevention .....	94
53	Parts Subject to Pressure .....	94
54	Overpressure Protection .....	94
55	Risks of Pressure Injection and Cutting .....	95
55A	Injection Test .....	96
56	Switches, Controls, and Interlocks .....	96B
57	Strength of Support Handles .....	97
58	Stability .....	97
59	Strength of Mounting .....	97
60	Discharge-Fluid Temperature .....	98
61	Surface Temperatures .....	98

## PERFORMANCE – GENERAL

62	Details .....	98
62.1	All products .....	98
62.2	Electrical systems .....	99
62.3	Fuel-fired products .....	99
63	Instrumentation .....	100
63.1	Temperature measurement .....	100
63.2	Draft .....	102A
63.3	Fuel input .....	103
64	Installation .....	103
64.1	Fixed products – corner installation .....	103
64.2	All fixed products – alcove or closet installation .....	104
64.3	Fuel-fired fixed products .....	104
64.4	All portable products .....	109
64.5	Fuel-fired portable products .....	109

## PERFORMANCE – ALL PRODUCTS

65	Normal Operation Tests .....	109
65.1	All products .....	109
65.2	Gas-fired products .....	110
65.3	Oil-fired products with mechanical atomizing burners .....	110
66	Maximum Pressure Tests .....	110
67	Normal Temperature Test .....	110
67.1	General .....	110
67.2	Surface temperature test .....	115
67.3	Maximum normal load .....	116
68	Abnormal Operation Tests .....	116
68.1	All products .....	116
68.2	Electrically heated products .....	117
68.3	Fuel-fired products .....	117
69	Hydrostatic Pressure and Strength Test .....	117
70	Tests on Gaskets, Seals, and Parts .....	118
70.1	Fluid handling parts .....	118
70.2	Aging test .....	118
70.3	Volume change .....	120
70.4	Weight loss .....	120
70.5	Gaskets and seals for fuel tank joints .....	121
70.6	Cleaning solution .....	121
71	Tests on Nonmetallic Enclosures and Guards .....	122
71.1	Ball-impact .....	122
71.2	Mold stress-relief distortion .....	123
71.3	Light and water exposure .....	123
71.4	Izod impact .....	123
71.5	Tensile impact .....	124
72	Drop-Impact Test .....	124
73	Test for Strength of Support Handles .....	125
74	Tests on Pressure-Regulating Control Switches .....	125
74.1	General .....	125
74.2	Overpressure protection tests .....	125
75	Metallic-Coating-Thickness Test .....	126
76	Permanence of Markings .....	127
76.1	General .....	127
76.2	Cord tags .....	128

## PERFORMANCE – ELECTRICAL SYSTEMS

77	Leakage Current Test .....	129
78	Leakage Current Test Following Humidity Conditioning .....	131
79	Insulation Resistance Test Following Humidity Conditioning .....	132
80	Starting Current Test .....	132
81	Input Test .....	133
82	Bonding Conductor Tests .....	133
83	Dielectric Voltage-Withstand Test .....	134
84	Flooding Tests .....	135
84.1	General .....	135
84.2	Component malfunction or breakdown test .....	135
84.3	Overflow test .....	135
84.4	Test on polymeric components intended for water-handling .....	136

84.5 Water spray test I .....	136
84.6 Water spray test II .....	136
85 Test on Gripping Areas .....	139
86 Tests on Switches and Controls .....	140
87 Tests on Temperature Controls .....	141
88 Strain-Relief Test .....	141
89 Radiation Test .....	142
90 Ozone Generation Test .....	142
91 Overvoltage Test .....	142

## PERFORMANCE – FUEL-FIRED SYSTEMS

92 Combustion Tests .....	143
92.1 Gas-fired products .....	143
92.2 Oil-fired products .....	144
92.3 Oil-fired products with mechanical-atomizing burners .....	145
92.4 Oil-fired products with vaporizing burners .....	146
93 Ignition Tests – General .....	148
94 Ignition Tests – Gas Fired Products .....	148
94.1 Pilot supervision .....	148
94.2 Ignition, gas-electric high tension .....	149
94.3 Gas-electric hot-wire – reduced voltage .....	149
94.4 Gas – electric hot-wire – endurance .....	150
94.5 Gas-electric hot-wire – component temperatures .....	150
95 Ignition – Oil-Fired Products .....	151
95.1 Ignition, electric high-tension – reduced voltage .....	151
95.2 Electric high-tension – combustion detectors .....	152
95.3 Electric hot-wire – reduced voltage – test 1 .....	152
95.4 Electric hot-wire – reduced voltage – test 2 .....	153
95.5 Electric hot-wire – endurance .....	153
95.6 Electric hot-wire – component temperatures .....	154
95.7 Gas – reduced voltage .....	154
95.8 Gas – pilot supervision .....	155
95.9 Gas – flame failure response .....	155
95.10 Gas – stability .....	155
95.11 Gas-electric – ignition .....	156
95.12 Gas-electric high-tension .....	156
95.13 Gas-electric hot-wire – reduced voltage – test 1 .....	157
95.14 Gas – electric hot-wire– reduced voltage – test 2 .....	158
95.15 Gas – electric hot-wire – general .....	158
95.16 Manual – general .....	158
95.17 Stability .....	159
95.18 Ignition flash .....	159
95.19 Reduced voltage .....	159
96 Blocked Flue Test .....	161
97 Combustion Air Interruption Test .....	162
97.1 General .....	162
97.2 Gas-fired products .....	162
97.3 Oil-fired products .....	162
98 Undervoltage Test .....	163
98.1 General .....	163
98.2 Gas-fired products .....	163
98.3 Oil-fired products .....	163
