STANDARD FOR SAFETY

Installation, Operation, and
Maintenance of Toxic Gas-Detection
Instruments

UL Standard for Safety for Installation, Operation, and Maintenance of Toxic Gas-Detection Instruments, UL 920002

First Edition, Dated September 30, 2013

Summary of Topics

This revision of ANSI/UL 920002 dated September 24, 2021 is being issued to update the title page to reflect the most recent designation as a Reaffirmed American National Standard (ANS). No technical changes have been made.

Adoption of ANSI/ISA-92.00.02-2013, Standard for Installation, Operation, and Maintenance of Toxic Gas-Detection Instruments as ANSI/UL 920002. As noted in the Commitment of Amendments statement located on the back side of the title page, UL and ISA are committed to updating this co-designated standard jointly after processing according to the standards development procedures by UL.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

These requirements are substantially in accordance with Proposal(s) on this subject dated June 25, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

This ANSI/UL Standard for Safety consists of the First Edition including revisions through September 24, 2021. The most recent designation of ANSI/UL 920002 as a Reaffirmed American National Standard (ANS) occurred on September 24, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

CONTENTS

General Notes	5
Preface (ISA).....	7
INTRODUCTION.....	11
1 Scope	15
2 References.....	15
3 Terms and definitions.....	16
4 Basic information on the properties, behaviour, and detection of gases and vapors	20
4.1 Detecting gases and vapors – General.....	20
4.2 Some common properties of gases and vapors.....	22
4.3 The differences between detecting gases and vapors.....	23
4.4 Oxygen deficiency	26
5 Measuring principles	28
5.1 General	28
5.2 Selection criteria.....	28
5.3 Miscellaneous factors affecting selection of equipment.....	32
6 Behavior of gas releases	32
6.1 Nature of a release	32
6.2 Buildings and enclosures	35
6.3 Unventilated buildings and enclosures	36
6.4 Ventilated buildings and enclosures	36
6.5 Natural ventilation.....	36
7 Design and installation of fixed gas detection systems	37
7.1 Basic considerations for the installation of fixed systems.....	38
7.2 Location of detection points	38
7.3 Access for calibration and maintenance	42
7.4 Additional considerations for sample lines	42
7.5 Summary of considerations for the location of sensors or sampling points.....	43
7.6 Installation of sensors	44
7.7 Integrity and safety of fixed systems.....	44
7.8 Timing of installation during construction operations	46
7.9 Commissioning	46
7.10 Operating instructions, plans and records	47
8 Use of portable and transportable toxic gas detection equipment	48
8.1 General	48
8.2 Initial and periodic check procedures for portable and transportable instrumentation.....	49
8.3 Guidance on the use of portable and transportable equipment	51
9 Training of operational personnel.....	54
9.1 General	54
9.2 General training – Basic limitations and safety	54
9.3 Operator training	55
9.4 Maintenance training	56
10 Maintenance, routine procedures and general administrative control	56
10.1 General.....	56
10.2 Operational checks	58
10.3 Maintenance	59
10.4 Sensors	60
10.5 Flow systems	61
10.6 Readout devices.....	61
10.7 Alarms	62
10.8 Workshop calibration test and equipment	62

Annex A (Normative) Applicability & acceptance criteria

Annex B (Informative) Environmental parameters

Annex C (Informative) Instrument maintenance record for toxic gas detectors (typical)

General Notes

This is the common ISA and UL, Standard for the Installation, Operation, and Maintenance of Toxic Gas-Detection Instruments. It is the first edition of ANSI/ISA-92.00.02 and the first edition of ANSI/UL 920002. The document is a modification of the ISA document to create the equivalent UL version and maintain the ANSI approval of this standard.

ANSI/ISA-92.00.02 and ANSI/UL 920002 contain identical requirements, and identical publication dates.

This common standard was prepared by the (ISA) - The International Society of Automation on September 30, 2013 but is now being maintained by Underwriters Laboratories Inc. (UL).

Note: Although the intended primary application of this standard is stated in its scope, it is important to note that it remains the responsibility of the users of the standard to judge its suitability for their particular purpose.
