

UL 1786

STANDARD FOR SAFETY

Direct Plug-In Nightlights

UL Standard for Safety for Direct Plug-In Nightlights, UL 1786

Fourth Edition, Dated December 17, 2014

Summary of Topics

This revision of ANSI/UL 1786 dated February 22, 2021 includes the following changes in requirements:

– **Clarification of Test Wall Dimensions in the Blanketing Test Requirements; [11.1.1](#), [Figure 12A](#)**

– **Clarification of "glowing" in the Blanketing Test Requirements; [11.1.4](#), [11.1.7](#)**

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated November 11, 2019 and July 10, 2020.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

Commitment for Amendments

This standard is issued jointly by the Canadian Standards Association (operating as “CSA Group”) and Underwriters Laboratories Inc. (UL). Comments or proposals for revisions on any part of the standard may be submitted to CSA Group or UL at any time. Revisions to this standard will be made only after processing according to the standards development procedures of CSA Group and UL. CSA Group and UL will issue revisions to this standard by means of a new edition or revised or additional pages bearing their date of issue.

All rights reserved. No part of this publication may be reproduced in any form whatsoever without the prior permission of the publisher.

This Standard is subject to review within five years from the date of publication, and suggestions for its improvement will be referred to the appropriate committee. To submit a proposal for change, please send the following information to inquiries@csagroup.org and include “Proposal for change” in the subject line: Standard designation (number); relevant clause, table, and/or figure number; wording of the proposed change; and rationale for the change.

To purchase CSA Group Standards and related publications, visit CSA Group's Online Store at store.csagroup.org or call toll-free 1-800-463-6727 or 416-747-4044.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

This ANSI/UL Standard for Safety consists of the Fourth edition including revisions through February 22, 2021. The most recent designation of ANSI/UL 1786 as an American National Standard (ANSI) occurred on February 22, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

To purchase UL Standards, visit UL's Standards Sales Site at <http://www.shopulstandards.com/HowToOrder.aspx> or call toll-free 1-888-853-3503.

CONTENTS

Preface	5
1 Scope	7
2 Reference Publications	7
3 Components	9
4 Units of Measurement	9
5 Application of Requirements	9
6 Definitions	10
7 Construction	11
7.1 Enclosures – General	11
7.2 Polymeric materials for enclosure and electrical insulation	12
7.3 Enclosure assembly methods	13
7.4 Corrosion protection	13
7.5 Current-carrying parts	13
7.6 Plug blades	13
7.7 Plug face dimensions	13
7.8 Polarization and identification	14
7.9 Switching mechanisms	14
7.10 Lampholder	14
7.11 Wiring and terminal connections	15
7.12 Internal wiring	15
7.13 Spacing of conductive parts	16
7.14 Grounding and bonding	17
7.15 Maximum tipping moment	17
7.16 Electroluminescent panels	17
7.17 Incandescent lamps	18
7.18 LED light sources	18
7.19 Receptacle	18
7.20 Ballasts	19
7.21 Vessels containing a liquid	19
8 General Tests	19
8.1 General	19
8.2 Accessibility of live parts	20
8.3 Dielectric voltage-withstand	20
8.4 Plug blades accessibility	20
9 Normal Operation Tests	20
9.1 Temperature	20
9.2 Lampholder and lamp base accessibility	21
10 Component Tests	22
10.1 Switch mechanism	22
10.2 Plug blade secureness test	23
10.3 Folded blade compression test	24
10.4 Mold stress-relief distortion test	24
10.5 Lamp cavity separation test	24
10.6 Pull test	24
10.7 Enclosure impact test	24
11 Abnormal Tests	25
11.1 Blanketing test	25
11.2 Overlamping test	26
11.3 Limited short-circuit test	26
11.4 Overvoltage test	26
11.5 Component breakdown test	26
11.6 Voltage surge test	27

11.7	Humidity conditioning test	28
11.8	Leakage-current test	28
11.9	Grounding continuity test	30
11.10	Crush test	30
11.11	Torque test	30
11.12	Rotational endurance test	31
12	Factory Production Tests	31
12.1	Dielectric voltage-withstand test	31
12.2	Additional factory production tests in Canada	32
13	Marking	32

Annex A (Normative) Standards for components

Annex B (CAN) (Normative) Grounding and bonding of electrical equipment

B.1	General	54
B.2	Impedance	54
B.3	Impedance Test	54

ANNEX C (CAN) (Normative) Printed circuit-board requirements

C.1	Application	55
C.2	Special Terminology	55
C.3	General	55
C.4	Printed Circuit-Board Coatings Tests	56
C.4.1	Dielectric strength	56
C.4.2	Adhesion	56
C.4.3	Abrasion resistance test apparatus	57
C.4.4	Insulation Resistance Test Voltage	58
C.4.5	Fault conditions test	58
C.5	Bond Strength of Printed-Wiring Boards	58
C.5.1	General	58
C.5.2	Test procedure	59

Annex D (CAN) (Normative) Factory Tests for Canada

D.1	Grounding continuity	60
D.2	Separation	60
D.3	Candelabra lamp devices	60
D.4	Test records	60

Annex E (CAN) (Informative) French translations and markings
