## STANDARD FOR SAFETY

### Hybrid Personal Flotation Devices

UL Standard for Safety for Hybrid Personal Flotation Devices, UL 1517

Third Edition, Dated April 20, 2007

### **Summary of Topics**

***This revision of ANSI/UL 1517 dated October 28, 2021 is being issued to update the title page to reflect the most recent designation as a Reaffirmed American National Standard (ANS). No technical changes have been made.***

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The requirements are substantially in accordance with Proposal(s) on this subject dated September 3, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

## **UL 1517**

### **Standard for Hybrid Personal Flotation Devices**

First Edition – November, 1984  
Second Edition – March, 2000

#### **Third Edition**

**April 20, 2007**

This ANSI/UL Standard for Safety consists of the Third Edition including revisions through October 28, 2021.

The most recent designation of ANSI/UL 1517 as a Reaffirmed American National Standard (ANS) occurred on October 28, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

## CONTENTS

### INTRODUCTION

1	Scope .....	7
2	Units of Measurement .....	7
3	Undated References .....	7
4	Glossary .....	7
5	Components and Materials .....	9

### CONSTRUCTION

6	General .....	12
7	Sizing and Arrangement .....	12
7.1	General .....	12
7.2	Inflation systems and compartments .....	13
8	Closures and Attachment Means .....	14
9	Seams .....	16
10	Coatings .....	16

### PERFORMANCE

#### GENERAL

11	Configurations for Tests .....	17
----	--------------------------------	----

#### USE TESTS

12	General .....	18
13	Donning and Operability Tests .....	21
13.1	Deflated donning and operability test .....	21
13.2	Inflated donning test .....	21
14	Jump Tests .....	22
14.1	General .....	22
14.2	Deflated device .....	22
14.3	Inflated device .....	22
14.4	Belts .....	22
15	Inherent Flotation Characteristics Test .....	23
16	Inflated Flotation Stability Tests .....	24
16.1	General .....	24
16.2	Type II characteristics tests .....	24
16.3	HELP position test .....	25
16.4	Type III characteristics tests .....	26
17	Water Emergence Test .....	29

#### MECHANICAL CHARACTERISTICS TESTS

18	Operation Force and Inflation Pressure Test .....	29
19	Buoyancy and Permeability Tests .....	30
19.1	Deflated device .....	30
19.2	Inflated device .....	31
19.3	Buoyancy determination .....	31
20	Distribution Tests .....	32
20.1	Buoyancy distribution test .....	32

20.2	Loss distribution test .....	32
21	Water Entrapment Test .....	32
22	Dynamic Strength Test.....	33
23	Tensile Tests .....	33
24	Temperature Cycling Tests .....	36
24.1	General.....	36
24.2	High to low temperature exposure .....	36
24.3	Low to high temperature exposure .....	36
25	Solvent Exposure Test .....	36
26	Flame Exposure Test.....	37
27	Abrasion/Compression Test .....	37
28	Puncture Resistance Test .....	37
29	Over-Pressure Tests.....	38
29.1	Device test .....	38
29.2	Over-pressure relief valve test .....	39
30	Air Retention Test.....	39
31	Strength of Attachment Tests .....	39
31.1	Inflation systems test .....	39
31.2	Secondary closure test.....	40
31.3	Pull test.....	40
32	Environmental Tests .....	40
32.1	General.....	40
32.2	Water exposure test.....	40
32.3	Humid atmosphere test .....	44
33	Body Strap – Hardware Securement Test.....	44
34	Seam Strength Test.....	44
35	Abrasion Resistance Test.....	45

## MANUFACTURING AND PRODUCTION TESTS

36	General .....	45
37	Air Retention Test .....	45

## MARKING

38	General .....	45
38.1	General.....	45
38.2	USCG recreational use approval.....	45
38.3	Identification and information .....	46

## SUPPLEMENTARY INFORMATION

39	General .....	47
40	Information Pamphlet .....	47
41	Owners Manual .....	50

## SUPPLEMENT SA – REQUIREMENTS FOR HYBRID PFDs FOR COMMERCIAL USE

SA1	Scope .....	55
SA2	General.....	55
SA3	Sizing and Arrangement.....	55
SA4	Closures .....	56
SA5	General.....	56
SA6	Jump Tests.....	56
SA7	Inherent Flotation Characteristics Test.....	56
