

**CAN/ULC-S653:2016-REV1  
(Including Revision 1)**

**STANDARD FOR ABOVEGROUND HORIZONTAL STEEL  
CONTAINED TANK ASSEMBLIES FOR FLAMMABLE AND  
COMBUSTIBLE LIQUIDS**

**Standards Council of Canada**  
**Conseil canadien des normes**

Underwriters Laboratories of Canada (ULC) was established in 1920 by letters patent issued by the Canadian Government. It maintains and operates laboratories and certification services for the examination, testing and certification of appliances, equipment, materials, constructions and systems to determine their relation to life, fire and property hazards as well providing inspection services.

ULC Standards develops and publishes standards and other related publications for building construction, security and burglar protection, environmental safety, electrical equipment, fire protection equipment, gas and oil equipment, thermal insulation products, materials and systems, energy use in the built environment and electrical utility safety.

ULC Standards is a not-for-profit organization and is accredited by the Standards Council of Canada as a Standards Development Organization.

National Standards of Canada developed by ULC Standards conform to the requirements and guidance established by the Standards Council of Canada. Such standards are prepared using the consensus principle by individuals who provide a balanced representation of interests relevant to the subject area on a national basis.

## **National Standard of Canada**

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

### ULC STANDARDS

171 Nepean Street, Suite 400  
Ottawa, Ontario K2P 0B4  
Telephone: (613) 755-2729

To purchase ULC Standards, visit: [www.ulc.ca/ulcstandards](http://www.ulc.ca/ulcstandards)

The intended primary application of this standard is stated in its scope. It is important to note that it remains the responsibility of the user of the standard to judge its suitability for the particular application.

Copies of this National Standard of Canada may be ordered from ULC Standards.

CETTE NORME NATIONALE DU CANADA EST DISPONIBLE EN VERSIONS FRANÇAISE ET ANGLAISE

Standard for Aboveground Horizontal Steel Contained Tank Assemblies for Flammable and Combustible Liquids, CAN/ULC-S653:2016-REV1

Third Edition, Dated January 2016

***Summary of Topics***

***This March 2019 revision of CAN/ULC-S653:2016 contains revisions to support the National Research Council of Canada program to address Climate Change Adaptation in Canadian Codes and Standards.***

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated August 24, 2018.

A “**(REV1)**” marker in Bold will be inserted at the start of the applicable Clause(s) and in the applicable Subsection title(s). The Subsection title markers will appear in the TOC as a result. The markers may be found by searching for the characters “(REV1)”. Including the parenthesis in the search term will find the markers, without also finding every page header.

**PLEASE NOTE THAT CERTAIN CODES MAY REFER TO A SUPERSEDED VERSION OF THIS STANDARD. IN THOSE INSTANCES, THE RELEVANT VERSIONS ARE AVAILABLE FOR PURCHASE.**
